Cash companies

43. (1) If within six months after the ZSE has classified it as a cash company, a cash company fails to enter into an agreement and make an announcement relating to the acquisition of viable assets that satisfy the conditions for listing set out in Part V, its listing will be suspended.

(2) If a cash company fails to obtain the ZSE's approval, within three months from the date of its suspension, of a circular relating to the acquisition by it of viable assets that satisfy the conditions for listing set out in Part V, the cash company's listing will be terminated.

(3) Where a cash company is to be utilised for the reversal of assets to itself—

(a) it must comply with the requirements for bringing a company to listing; and

(b) the company as reconstituted must meet the conditions for listing as set out in Part V.

(4) Cash company's investment shall acquire no less than 10 *per centum* of equity of the company holding the viable asset and it must be eligible for prescribed asset status.

SUB-PART D: RIGHTS BETWEEN HOLDERS OF SECURITIES

Equality of treatment

44. (1) An issuer must ensure that all holders of any class of its securities receive fair and equal treatment.

(2) An issuer may not issue any securities with voting rights differing from other securities of the same class.

Pre-emptive rights

45. (1) Securities in each class for which listing is applied must rank *pari-passu* in respect of all rights, that is to say, the securities—

(a) must be identical in all respects;

(b) must be of the same nominal value and the same amount per share must have been paid up;

(c) must carry the same rights as to unrestricted transfer, attendance and voting at general meetings and in all other respects; and

(d) must be entitled to dividends at the same rate and for the same period so that at the next distribution, the dividend payable on each share will be the same amount.

(2) Unless the security holders concerned otherwise permit, an issuer proposing to issue equity securities for cash must first offer those securities by a rights offer to existing equity shareholders in proportion to their existing holdings.

(3) Only to the extent that the securities are not taken up by existing equity shareholders in terms of the offer may they be issued for cash to others or otherwise than in the proportion mentioned in subsection (1).

Waiver of pre-emptive rights

46. (1) To the extent that security holders of an issuer give their authorisation by ordinary resolution, issues of equity securities for cash made otherwise than to existing shareholders in proportion to their existing holdings will, subject to Part V (conditions for listing), be permitted for a fixed period in accordance with that authority.

(2) In exceptional circumstances, such as rescue operations, the ZSE may in its discretion allow a waiver of shareholders' pre-emptive rights that does not comply with subsection (1) if satisfied that the conditions listed in the Twenty-eighth Schedule exist but the ZSE may require the publication of such information relating to the waiver as it may consider appropriate.

Profit warranties

47. (1) Where securities are the subject of a profit warranty, such securities may only be conditionally allotted and issued and must be held by an independent third party in trust, pending fulfilment of the conditions of the warranty. The conditions of the profit warranty will only be regarded as having been met once the profit required has been achieved in terms of the profit warranty agreements and the issuer's auditors have confirmed in writing to the ZSE that the conditions have been met for the securities to be allotted and issued.

(2) Where the conditions of a profit warranty are not met—

- (a) the conditional allotment and issue of the securities that were subject to such unfulfilled conditions are of no further force or effect; and
- (b) no cash compensation may be made for the profit warranty to be achieved.

Issues by major subsidiary other than on listing

48. (1) For the purposes of this section, a subsidiary company will be regarded as a major subsidiary if it represents 25 *per centum* or more of the aggregate of—

- (a) the share capital and reserves, excluding any minority interests, unrealised reserves not supported by a valuation prepared in the last six months by an independent professional expert acceptable to the ZSE, and intangible assets; or
- (b) the profits, after deducting all charges except taxation and excluding extraordinary items;

of the issuer's group.

(2) An issuer must obtain the consent of its shareholders, determined in accordance with Part VI (methods and procedures of bringing securities to listing) and categorized in terms of Part XI (transactions with related parties), before any major subsidiary of the listed company makes any issue for cash of equity securities so as to materially dilute the listed company's percentage interest in the equity securities of that subsidiary.

(3) The obligation to obtain the consent of shareholders in subsection (2) does not apply if the major subsidiary is itself listed, but in that case—

- (a) the major subsidiary must comply with subsection (1);
- (b) the listed company must ensure that its equity interests in the major subsidiary are not materially diluted through any new cash issue by such subsidiary of equity securities unless such dilution is necessary for the listed subsidiary to satisfy the minimum spread requirements; and
- (c) in the case of a rights issue, if the listed company does not propose to take up its rights, an arrangement must be made for the rights to be offered first to its shareholders so that they can avoid a material dilution in their effective percentage equity interests.

(4) The obligation to obtain the consent of shareholders in subsection (2) does not apply if the major subsidiary is unlisted and the issue takes the form of a rights issue to shareholders including the issuer. If the issuer does not propose to take up its rights, an arrangement must be made for the rights to be offered first to its shareholders so that they can avoid a material dilution of their effective percentage equity interests.

Options for cash

49. (1) Where options over securities, excluding executive and staff share schemes, are granted for cash, such options must be issued to all shareholders on the share register as on the business day immediately prior to the date of the grant of the listing in proportion to their shareholding in the listed company. Where this procedure is not to be adopted, the ZSEs consent should be obtained.

(2) The total number of options granted or issued may not, except in the case of a mineral company as defined in Part XIII, exceed 20 *per centum* of the listed company's issued capital unless offered to all shareholders in proportion to their existing shareholdings.

Shareholder spread

50. (1) All listed companies are required to ensure that a minimum percentage of each class of securities is held by the public as provided in section 87 (main board listing criteria).

(2) If the percentage of a class of securities held by the public does not comply with the minimum spread requirements, the ZSE may suspend or terminate the listing of a company in accordance with Part II (authority of the ZSE) and allow the company a period of 90 days to restore the percentage, unless that is precluded by the need to maintain the smooth operation of the market or in order to protect investors.

(3) A listing will not generally be granted to any issue of securities that would reduce the percentage level of securities held by the public.

(4) If an issuer does not comply with the minimum spread requirements, any application to list new securities will be granted only if, as a result of the issue, the minimum spread requirements will be achieved as far as possible having regard to the size of the issue.

(5) The ZSE may, in its discretion, allow a reduction in the minimum spread requirements if it considers that such a reduction is in the best interests of the issuer and does not unduly prejudice investors, for example in a rescue situation, provided that an acceptable plan to regularise the position is submitted to the ZSE.

Notification

51. (1) An issuer must inform the ZSE, in writing, within seven business days of it becoming aware that the proportion of any class of listed securities in the hands of the public has fallen below the minimum spread requirements.

- (2) An issuer must, in regard to its securities held by the public, disclose in its annual financial statements—
- (a) the number of members of the general public who hold securities in each class of its listed securities;
 - (b) the percentages of each class of securities held by members of the general public and other persons; and
 - (c) an analysis, in accordance with the categories set out in section 86 (1) to (3), of the disclosure for non-public securities holders.

on the ground that the grant or refusal of the listing is in the interests of the investing public. (2) Applicants are required to submit to the ZSE, at an early date, any matter or unusual feature relating to the listing. The company must hold an extraordinary meeting to agree to waive pre-emptive rights by a vote of 85 *per centum* in favour of the resolution.

(2) When, in connection with the listing of a subsidiary company, a listed holding company intends to make an offer of securities in the subsidiary to persons other than wholly-owned entities within the holding company's group, and the issue or offer will result in—

(3) A high-voting security is one which, subject to compliance with the provisions of the Companies Act [*Chapter 24:03*], confers on its holder, both at the proposed time of listing the instrument and subsequently, enhanced voting rights in comparison with the voting rights conferred on the holders of equity securities of the issuer already listed. The voting rights may be enhanced either with respect to the number of votes per security or with respect to the matters on which the holders of the securities may vote, or otherwise.

Convertible securities

84. (1) The ZSE shall not grant a listing to convertible securities unless there are sufficient unissued securities in the applicant's authorised capital into which the convertible securities could convert at the time the convertible securities are issued.

- (b) the applicant's solvency and capital adequacy are suitably regulated by another regulatory body.

Shareholder approval

166. If the issue of securities in respect of which the pre-listing statement is to be issued is made conditional upon shareholder approval, the following statement must appear on the first page of the pre-listing statement—

- (a) the information is of minor importance only and is not such as will influence assessment of the assets and liabilities, financial position, profits and losses and prospects of the applicant;
- (b) disclosure would be seriously detrimental to the applicant or would constitute an invasion of the applicant’s right to privacy, and non-inclusion is not likely to mislead investors with regard to facts and circumstances, the knowledge of which is essential for the assessment of the securities in question.

(3) Requests to the ZSE to authorise any exclusion of information must—

- (a) be made in writing by the applicant or by the applicant’s sponsoring broker; or
- (b) identify the information concerned and the reasons for the non-inclusion; and

General

228. (1) If, in any document requiring submission to the ZSE, the issuer publishes pro forma financial information, including financial statements, that information must comply with sections 229 to 238, and a report in terms of section 240(c) must be included in the relevant document, but such report is not required for announcements.

(2) The provision of accurate pro forma financial information is the responsibility of the directors of the issuer who must include a statement accepting that responsibility in any publication containing pro forma financial information.

Nature of pro forma information

229. (1) The purpose of pro forma financial information is to provide investors with information about the impact of the corporate action which is the subject of the prospectus or pre-listing statement or circular by

illustrating how that corporate action might have affected the reported financial information had the corporate action been undertaken at the commencement of the period being reported on or in the case of a pro forma statement of financial position, at the date reported on.

(2) The pro forma financial information presented is not to be misleading, it is there to assist investors in analysing future prospects of the issuer and is to include all appropriate adjustments permitted by section 236 (adjustments to financial statements) of which the issuer is aware, and which are considered necessary to give effect to the corporate action as if the corporate action had been undertaken at the commencement of the period being reported on or, in the case of a pro forma statement of financial position, at the date reported on.

Presentation of pro forma financial information

230. (1) Pro forma financial information must state—

- (a) the purpose for which it has been prepared;
- (b) that it is prepared for illustrative purposes only; and
- (c) that because of its nature it may not necessarily present the issuer's actual financial position, changes in equity, results of operations or cash flows.

(2) Pro forma financial information must be presented in columnar form showing separately the unadjusted financial information and the pro forma adjustments, and must identify the basis upon which it is prepared; and the source of each item of information and adjustment.

(3) Pro forma figures must be given no greater prominence in the document than unadjusted financial figures.

Accounting policies to be adopted in preparing and presenting pro forma financial information

231. (1) Pro forma financial information must be presented in a manner consistent with both the format and accounting policies adopted by the issuer in its report of historical financial information.

(2) In quantifying pro forma financial information adjustments, the issuer must apply accounting policies on the same basis as the issuer would normally adopt in preparing its annual financial statements.

(3) The requirement to apply the issuer's accounting policies in preparing pro forma financial information applies to adjustments made in respect of a material acquisition.

(4) Pro forma financial information must be prepared in accordance with the policies adopted in presenting the unadjusted financial information of the issuer at the relevant date or for the relevant period, even where new accounting standards will apply subsequently.

Selection of periods

232. Pro forma financial information may be published only in respect of—

- (a) the most recently financial reporting period;
- (b) in the case of a pro forma statement of financial position, as at the date on which such periods end or ended;
- (c) a profit forecast, provided that the forecast has been published and reported on in terms of Part X (transactions) or Part XII (mineral companies), for the statement of profit or loss and other comprehensive income purposes, and for the periods specified in paragraphs (a) and (b) for the purposes of a statement of financial position.

Subsequent events

233. No adjustments may be made to pro forma financial information in respect of events occurring after the end of the reporting period except—

- (a) as provided for in the IFRS on events after the reporting period;
- (b) in respect of the particular transaction for which the pro forma financial information is being presented;
- (c) in respect of any previously published financial effects that have been reported on in terms of section 240 (circumstances when auditors' report is required); or

- (d) in respect of any corporate action of the issuer or the target which occurred after the preparation of their statements of financial position, where it would be misleading not to make an adjustment, and in such instance, in addition to providing full details of the adjustment, details must be provided as to why the issuer believes it would be misleading not to make an adjustment.

Accounting periods

234. Where a pro forma statement of profit or loss and other comprehensive income or statement of cash flows is presented for two or more entities or business undertakings, such as may be the case in a material acquisition, the unadjusted information about the issuer and the adjustments in respect of the other entity or entities must cover periods of the same length.

Unadjusted information

235. (1) The unadjusted information must be derived from the most recent—

- (a) published audited annual financial statements, published interim reports or provisional reports;
- (b) previously published report of historical financial information;
- (c) previously published pro forma financial information reported on in accordance with section 241 (3)(b).

(2) Any previously published profit forecast must be updated and a new profit forecast published taking account of the effects of the transaction concerned.

Adjustments to financial statements

236. (1) Any adjustments that are made to the information referred to in section 227 in relation to any pro forma financial statement must be—

- (a) clearly shown and explained;
- (b) directly attributable to the transaction concerned and not relating to future events or decisions;
- (c) factually supportable; and
- (d) in respect of a pro forma financial statement of profit or loss and other comprehensive income or statement of cash flows, clearly identified as between those adjustments that are expected to have a continuing effect on the issuer and those that are not.

(2) In order to comply fully with subsection (1), issuers must include notes to the pro forma financial information providing the explanations required in terms of that section as well as—

- (a) any assumptions on which the adjustments are based;
- (b) the range of possible outcomes where there is significant uncertainty;
- (c) the sources of the amounts concerned; and
- (d) where relevant, how adjustments have been aggregated or allocated to financial statement captions.

Continuing effects

237. (1) In respect of pro forma income or cash flow statements, issuers must identify clearly those adjustments that are expected to have a continuing effect on the issuer and those that are not. An issuer is not permitted either—

- (a) to omit adjustments that are directly attributable to a transaction and factually supportable on the grounds that they do not have a continuing effect; or
- (b) to make adjustments to eliminate items solely on the grounds that they are considered not to have a continuing effect.

(2) Issuers must interpret section 227 in line with the requirements of IFRS and guidelines issued by PAAB.

Earnings and headline earnings per share

238. Where information on pro forma earnings and headline earnings per share is given for a transaction it must be provided in compliance with IFRS:

Provided that where the transaction includes the issue of securities, the calculation is to be based on the weighted average number of issued shares adjusted as if that issue had taken place at the beginning of the period.

Profit forecasts and estimates

239. (1) The requirements of subsections (2) to (10) apply to forecasts or estimates of profits or losses, cash flows or net asset values collectively defined as profits or losses. A profit estimate is for a financial period that has expired but for which the results have not yet been published.

(2) Any statement or information relating to the future prospects of an issuer, or an undertaking that is to become a material part of an issuer's group, must be clear and unambiguous. The issuer must determine in advance with its sponsoring broker whether such a statement of information will constitute a profit forecast or an estimate. Any profit forecast or estimate must be compiled with using accounting policies that are consistent with those applied by the applicant.

(3) A specific profit forecast which—

- (a) states a figure for the likely level of profits or losses for the current financial period or financial periods subsequent to that period, or contains data from which a calculation of such a figure for profits or losses may be made.
- (b) is usually made when an applicant includes a number, percentage, range, value or any other term that has a recognised value. This list is not exhaustive and issuers must consult with their sponsoring brokers to ascertain whether a statement constitutes a specific forecast.

(4) A general profit forecast—

- (a) indicates a minimum or maximum figure for the likely level of profits or losses for the current financial period and financial periods subsequent to that period, or contains data from which such calculation may be made, even if no particular figure is mentioned and the word profit is not used;
- (b) is usually made when an applicant uses the following words or terms: improvement, "increase", "growth", "decline", "decrease", "similar" or "in line with". The use of these words or terms must not result in the statement becoming a specific profit forecast;
- (c) this list is not exhaustive and applicants must consult with their sponsoring brokers to ascertain whether a statement is a general forecast.

(5) A profit estimate bears the same meaning as a general or specific forecast, with the exception that it relates to a financial period ended but for which no financial information has yet been published.

(6) When an applicant clearly states in an announcement that it has certain future targets or objectives that it would like to achieve, such shall not be interpreted as a profit forecast or estimate as referred to above, provided that the targets or objectives do not specifically relate to the current or next reporting period.

(7) A specific or general profit forecast or estimate of an applicant, or an undertaking that is or will become a material part of the issuer's group, which is included in any communication with shareholders is the sole responsibility of the directors and must—

- (a) include the key assumptions that have been used in arriving at the forecast or estimate;
- (b) make reference to the relevant previously published information, for instance any line item in the statement of profit or loss or other comprehensive income, statement of financial position or the statement of cash flows, to which it relates; and
- (c) in the case of a specific profit forecast or estimate, must be reported on by the sponsoring brokers in accordance with section 24 (profit forecast).

(8) A dividend forecast must be treated as a profit forecast where the applicant has a known policy of relating dividends to earnings, or has an insufficient level of retained earnings, or the forecast otherwise implies a forecast of profit. In the event of uncertainty, the ZSE must be consulted.

(9) A profit forecast or estimate of an applicant, or an undertaking that is to become a significant part of an issuer's group, which is included in any communication with shareholders must be reported on by the issuer's auditors or accountants and by the issuer's sponsoring broker as referred to in section 23 (financial reporting procedures). The applicant must compile its report in terms of International Standard on Assurance Engagements (ISAE) 3400 and IFRS.

(10) The period of the forecast or estimate should normally be to the end of an issuer's financial period. If it is not, then the period of the forecast or estimate must be in respect of a period for which the results will be published, or the issuer must make a new forecast for such a period. The forecast or estimate must be disclosed on a per share basis and must include profit after tax, disclosing separately any items expected to be of such size, nature or incidence that their disclosure is relevant to explain the expected performance, as well as tax charges, earnings and headline earnings, and cash flows or net asset values if applicable.

(11) A profit forecast included in a prospectus, a pre-listing statement or circular containing proposals to be put to shareholders in a general meeting concerning a refinancing or reconstruction of the issuer or its group, or in any other communication with shareholders, must include a statement of the principal assumptions for each factor that would have a material effect on the achievement of the forecast. These assumptions must—

- (a) be clearly segregated between assumptions about factors that the directors can influence and assumptions about factors that are entirely outside the influence of the directors;
- (b) be readily understandable by investors;
- (c) be specific about the particular aspect of the estimate or forecast to which they refer and about the uncertainty attaching to that aspect; and
- (d) not relate to the general accuracy of the estimates such as sales estimates, expense estimates, underlying the forecasts.

(12) If a profit estimate is included in any of the documents referred to in subsection 9, the estimate may only be subject to assumptions in exceptional circumstances, and such exceptional circumstances must be explained.

SUB-PART C: REQUIREMENTS RELATING TO AUDIT

(4) Where the historical financial information has not previously been subject to an audit or where the auditor is not the auditor of the company, the auditor must audit, at a minimum, the historical financial information relating to the financial year preceding the issue of the prospectus or pre listing statement or circular, and review the historical financial information of prior periods.

(5) Where, in accordance with the requirements of subsection (3), an audit of the historical financial information is to be performed and the auditor is also the auditor of the company, he or she must review the audit working papers relating to the relevant historical financial statements.

Contents of the auditors' report

242. A reporting auditor's report, as set out in section 241, must comply with the applicable international standards issued by the International Auditing and Assurance Standards Board (IAASB).

Date of the auditor's reports

243. The auditor's report must be dated on the same day that the directors authorise the issue of the pre-listing statement or circular or the date that the pre-listing statement or circular is lodged with the Registrar of Companies, whichever is the earlier.

Supplementary information

246. In addition to the requirements of IFRS, guidance issued by the Zimbabwe Accounting Practices Board, and the Companies Act [*Chapter 24:03*], the following supplementary information must, where applicable and material, be included—

- (a) in respect of the period under review and the immediately preceding comparable period, a headline earnings per share and a diluted headline earnings per share figure must be disclosed, in addition to the required IFRS earnings per share figures, together with an itemised reconciliation between headline earnings and the earnings used in the calculation of earnings per share;
- (b) in the case of mineral companies as defined in Part XII (mineral companies), summary information must be provided in the interim report disclosing any material changes to the information disclosed in compliance with sections 314 and 318 for the prior year or financial period ended, or an appropriate negative statement where there have been no material changes; and

Basis of presentation

248. Interim, preliminary, provisional and abridged reports must be presented on a consolidated basis and prepared in accordance with sections 223 (financial information to be presented).

Financial Reporting Monitoring Panel

249. (1) In this section—

“Financial Reporting Monitoring Panel (FRMP)” means a panel appointed by the ZSE and the Zimbabwe Accounting Practices Board to investigate and consider complaints and advise the ZSE in relation to compliance by issuers with IFRS, the ZSE's required accounting practices in terms of these rules, and the accounting practices required by the Companies Act [*Chapter 24:03*].

(2) If, after receiving advice from the FRMP, the ZSE is satisfied that an issuer has not complied with any of the requirements of this Part, the ZSE may, in its sole discretion—

- (a) censure the issuer in accordance with Part II (authority of ZSE);
- (b) instruct the issuer to publish or re-issue any information the ZSE may direct; and
- (c) report any professionals involved with such non-compliance to PAAB or any other professional or relevant body.

Use of financial advisers by issuers

250. (1) In order to ensure that the requirements of the applicable reporting standards are met and appropriately applied, each applicant or issuer is encouraged to make use of a financial adviser who is accredited as such by the PAAB.

(2) The role of the financial adviser includes the following—

- (c) it is suggested, but not required, that the applicant consult with and require the financial adviser to review the financial statements and other information of the applicant before their issue.

PART X

TRANSACTIONS RELATING TO ACQUISITIONS AND DISPOSALS

Application of Part

251. (1) In this Part, reverse take-over” means a transaction, or series of transactions, in which an issuer acquires a business entity or an unlisted company or assets which would result in a fundamental change in the listed company’s business; or a change in the listed company’s board or controlling shareholder involving an alteration to its articles of association; and such a transaction is considered to be a new listing.

(2) This Part deals with transactions, principally acquisitions and disposals, by an issuer. It describes how they are categorised, what the requirements are for announcements and circulars and whether shareholder approval is required. It then considers additional requirements for take-overs and mergers.

(3) Twenty-ninth Schedule (detailed requirements for take over and mergers) sets out, in a table, certain requirements for the contents of Category 1 and Category 2 circulars.

References to transactions

252. (1)References in this Part to a transaction by an issuer—

- (a) include a transaction by any subsidiary of the listed company;
- (b) exclude a transaction in the ordinary course of the company’s trading activities;
- (c) exclude an issue of securities or a transaction to raise finance which, in either case, does not involve the acquisition or disposal of any asset of the listed company or of its subsidiaries; and
- (d) include the written grant or acquisition of an option to acquire or dispose of assets as if the option had been exercised.

(2) An issuer which is in any doubt as to the application of the listings requirements contained in this Part must consult the ZSE at an early stage.

Categorisation and explanation of terms

253. (1) Any issuer considering a transaction must, at an early stage, consider the categorisation of the transaction.

(2) A transaction is categorised by assessing its size relative to that of the issuer proposing to make it and the listed holding company of such issuer, if applicable.

(3) The comparison of size is made by the use of the percentage ratios set out below. The different categories of transactions are—

- (a) Category 3—a transaction where any aggregate percentage ratio is *5 per centum* or more but each transaction is less than *20 per centum*;
- (b) Category 2—a transaction where any aggregate percentage ratio is *20 per centum* or more but each transaction is less than *30 per centum*;
- (c) Category 1—a transaction where any aggregate percentage ratio is *30 per centum* or more;

(4) Figures used for categorisation purposes must be the aggregate market value of all those securities before the announcement of the transaction or, in the case of consideration in the form of a new class of securities for which an application to listing will be made, the issue price of such securities or, if no price can be determined for that new class of securities, the expected aggregate market value of the securities in that class.

(5) In cases of doubt as to whether a transaction is to be categorised under this section, the issuer must consult the ZSE at an early stage and must comply with any instructions the ZSE may give regarding the categorisation of the transaction.

Percentage ratios

254. (1) The percentage ratios are the figures, expressed as a percentage, resulting from each of the following calculations—

- (a) consideration to market capitalisation—the consideration divided by the aggregate market value of all the equity securities of the listed company;
- (b) dilution—the number of securities issued by an issuer as consideration for an acquisition compared to those in issue prior to the transaction;

(2) Where a transaction is to be settled partly in cash and partly in shares, its category size is to be calculated by first assessing the cash-to-market capitalisation percentage and then adding this percentage to the dilution percentage.

(3) The calculation showing all categorisation workings must be supplied to the ZSE when the announcement and circular are submitted for approval.

(4) Where either of the above calculations produces an anomalous result, or where the calculations are inappropriate to the sphere of activity of the issuer, the ZSE may disregard the calculation and may substitute other relevant indicators of size.

(5) The ZSE may require the issuer to provide a fair and reasonable opinion on transaction values, taking into account other ratios, or may use any other appropriate indicators of size to determine the category size of a transaction, and such indicators may include net asset valuations, discounted cash flow, statement of financial position and turnover.

(6) If either of the percentage ratios changes to the extent that the categorisation of the transaction is altered between the time the transaction is first discussed with the ZSE and the announcement, the issuer must inform the ZSE and must comply with any instructions the ZSE may give regarding the categorisation of the transaction.

Consideration

255. When calculating the consideration for a transaction—

- (a) the consideration is the amount paid to the sellers but the ZSE may require the inclusion of further amounts, for instance where the purchaser agrees to discharge any liabilities, whether actual or contingent, of the sellers as part of the terms of the transaction;
- (b) where all or part of the consideration is in the form of securities to be listed, the consideration attributable to those securities means the aggregate market value of those securities based on the ruling price of such securities at the time the terms of the transaction are agreed;
- (c) if deferred consideration is or may be payable in the future, the consideration is the maximum possible total consideration payable under the agreement. If that total consideration is not subject to any maximum the transaction will normally be treated as a Category 1, notwithstanding the category into which it otherwise falls;
- (d) if the transaction involves a new class of securities for which an application for listing will be made, the consideration is the product of their issue price or, if the issuer does not provide evidence of their listed price, some other appropriate value determined to the satisfaction of the ZSE.

Indemnities and similar arrangements

256. (1) Any agreement or arrangement with a party, not being a member of the issuer's group—

- (a) under which an issuer agrees to discharge any liabilities for costs, expenses, commissions or losses incurred by that party, whether or not on a contingent basis; and
- (b) which would be exceptional; and
- (c) under which the maximum liability is unlimited;

must be treated as a Category 1 transaction.

(2) For the purpose of this Part, indemnities such as those customarily given in connection with sale and purchase agreements and indemnities given to advisers against liabilities to third parties arising out of providing advisory services are not exceptional.

Aggregation of transactions

257. (1) Transactions completed during —

- (a) the 12 months prior to the date of the latest transaction; or
- (b) the period since the date on which the most recent published audited statement of financial position was prepared; or
- (c) the period since the publication of the latest pre-listing statement or circular;

whichever is the shorter, must be aggregated with the latest transaction for the purpose of determining the categorisation to apply to the latest transaction.

(2) In cases of doubt as to whether transactions must be aggregated under this section, the issuer must consult the ZSE at an early stage and must comply with any instructions the ZSE may give regarding the aggregation of the transactions.

(3) Where acquisitions are entered into during a period of 12 months which cumulatively exceed 100 *per centum* in either of the percentage ratios, the provisions relating to a reverse take-over provided for in the Twenty-ninth Schedule (detailed requirements for take over and mergers) must be applied.

(4) Without prejudice to the generality of subsections (1) and (2), transactions will normally only be aggregated in accordance with those sections if they —

- (a) are entered into by the issuer with the same party or with parties connected with one another; or
- (b) involve the acquisition or disposal of securities or an interest in one particular company; or
- (c) together lead to substantial involvement in a business activity which did not previously form a part of the company's principal activities.

(5) If under subsection (1) the aggregation results in a Category 1 requirement for shareholder approval, then that approval is required only for the latest transaction.

Category 3 requirements

258. (1) In the case of a Category 3 transaction the issuer must, without delay and in any event within four calendar days after the terms of the transaction are agreed and before it is implemented, publish a press announcement setting out —

- (a) particulars of the transaction, including the names or details of—
 - (i) any company or business which is the subject of the transaction; and
 - (ii) the ultimate beneficiary of the transaction; and
 - (iii) if the transaction is an acquisition, the sellers; and
 - (iv) if the transaction is a disposal, the purchasers; and
 - (v) the effective date of the transaction; and
 - (vi) any conditions precedent; and
 - (vii) any other significant terms of the transaction;and
- (b) a description of the business carried on by the listed company; and
- (c) the consideration for the transaction, and how it has been or is to be paid or given, including the terms of any arrangements for deferred payment; and
- (d) the value of the net assets that are the subject of the transaction, and any significant pro forma effect the transaction will have on the net assets and net tangible assets per share of the company; and
- (e) the profits attributable to the net assets that are the subject of the transaction, and any significant pro forma effect the transaction will have on the historical earnings and headline earnings per share of the company; and
- (f) the reason for the transaction; and

- (g) in the case of a disposal of assets—
 - (i) the application of the sale proceeds; and
 - (ii) if securities formed part of the consideration received, a statement whether such securities must be sold or retained.

(2) The pro forma financial information required by subsection (1) paragraphs (d) and (e) must comply with the requirements of Part IX (financial information).

(3) In subsection (1), “significant” means a change of three *per centum* or more for the purpose of making an informed assessment of the assets and liabilities, financial position, profits and losses, cash flow and prospects of the listed company and the rights attaching to any securities forming part of the consideration.

(4) If, pursuant to a Category 3 transaction, securities have been acquired in a company which, as a result, becomes a subsidiary company, the listed company must give the ZSE a written undertaking that the constitutive documents of such a subsidiary company will be amended to conform to Tenth Schedule (requirements for articles of association). Such confirmation must also be included in the announcement in terms of subsection (1).

(5) If at any time after the publication of a press announcement in terms of subsection (1), the issuer becomes aware that—

- (a) there has been a significant change affecting any matter contained in that announcement; or
- (b) a significant new matter has arisen which would have been required to be mentioned in that announcement if it had arisen when that announcement was being prepared;

the listed company must without delay, and in any event within hours after becoming aware of the change or new matter, advise the ZSE and publish a supplementary press announcement:

- (i) giving details of the change or new matter; and
- (ii) containing a statement that, save as disclosed, there has been no significant change affecting any matter contained in the earlier announcement and no other significant new matter has arisen which would have been required to be mentioned in that earlier announcement if it had arisen when that announcement was being prepared.

(6) Where an issuer is required to publish a supplementary press announcement in terms of subsection (5), the ZSE may require the issuer to ensure that—

- (a) any person who assumed responsibility for any statement or assessment contained in the earlier press announcement, or who was responsible for any assessment or forecast on the basis of which any such statement or assessment was made, assumes responsibility for any revision of that statement, assessment or forecast in the supplementary press announcement;
- (b) any other person on whose statement, assessment or forecast anything in the supplementary press announcement is based assumes responsibility for that statement, assessment or forecast.

(7) If as a result of any significant change or new matter referred to in subsection (5) the percentage ratios of the transaction are affected and the transaction requires re-categorisation into a higher category, the issuer must re-categorise the transaction accordingly.

Category 2 requirements

259. (1) Within 4 calendar days after the terms of a Category 2 transaction have been agreed, and before they have been implemented, the listed company must—

- (a) publish a press announcement complying with the requirements of section 258(1); and
- (b) in the press announcement state that a circular to shareholders will be issued in compliance with subsection (2);

and within 28 calendar days thereafter, despatch the circular to shareholders.

(2) The circular referred to in subsection (1) must comply with the general requirements relating to circulars set out in this Part and must include—

- (a) the information required in the Twenty-ninth Schedule (detailed requirements for Take over and Mergers); and

- (b) details of any service contracts of proposed directors of the issuer; and
- (c) where the transaction involves a payment or consideration to be given for goodwill, a statement regarding the company's accounting policy towards goodwill as well as the reasons for such goodwill payment or consideration; and
- (d) a statement giving the directors' opinions on the transaction; and
- (e) the information required by the Twenty-ninth Schedule in relation to Category 2 circulars; and
- (f) in the case of an acquisition of an interest in an undertaking which will result in—
 - (i) a consolidation of the net assets of that undertaking; or

For all sample types, the nature, quality and appropriateness of the sample preparation technique must be indicated, including quality control procedures adopted for all sub-sampling stages to ensure that the samples are as representative as possible. Where open market value for an alternative use materially exceeds this basis, the alternative use valuation should be stated but the costs of cessation and removal should be estimated by the directors and shown in the valuation report.

(2) Property that is occupied for the purposes of a business must be valued in accordance with the relevant IFR standard or any other accounting framework acceptable to the ZSE.

The valuation report must include a summary of the number of properties and the aggregate of their valuations must be split to show the separate totals for the properties that are owned and those that are held by the company under a lease. Negative values must be shown separately and not aggregated with the other valuations. Separate totals must be given for properties valued on an open market basis and on a depreciated replacement cost basis, and for any external properties.

SUB-PART B: PROPERTY UNIT TRUSTS

Nature of property unit trusts

331. (1) Unit trust schemes in property shares are regulated by the Collective Investment Schemes Act [*Chapter 24:19*] and must also comply with these rules.

(2) A property unit trust is restricted to investment in the shares of property-owning companies (fixed property companies) and in approved securities, pending investment of cash resources into property. After the initial issue of units, a property trust may only issue further units by way of rights issues to existing unit holders or in consideration for the acquisition of a property investment, subject to the requirements of the ZSE.

(3) Where an issuer can satisfy the ZSE that it is a property unit trust, certain of these rules relating to property companies do not apply to it. In such a case the ZSE should be consulted.

Management company

332. (1) A management company must—

- (a) be formed solely for the purpose of establishing, carrying on or managing unit trust schemes in property shares and issuing unit certificates under those schemes, and must confine its activities solely to those purposes;

- (c) have a paid up share capital and non-distributable reserves which together amount to not less than RTGS\$1 000 000,00 actually employed or immediately available for employment in its unit trust business: and
- (d) registered by the Securities and Exchange Commission.

(2) A management company and its directors must not directly or indirectly derive any pecuniary advantage or personal interest from the acquisition or sale by the management company or by a fixed property company of any securities or underlying fixed properties of the property unit trust except as provided in the Collective Investment Schemes Act [*Chapter 24:19*] and the trust deed governing the property unit trust.

The trust deed

333. A unit trust scheme in property shares is governed by a trust deed entered into between the management company and the trustee. The trust deed sets out, among other things, the responsibilities, investment policy and restrictions of the management company, and the trustee's responsibilities which include custody of underlying securities and ensuring that the management company complies with the provisions of the trust deed. A trustee must be qualified under the Collective Investment Schemes Act [*Chapter 24:19*] to act as a trustee.

PART XV

SPECIAL TYPES OF ISSUERS

SUB-PART A: PYRAMID COMPANIES

Classification as pyramid company

335. (1) Any new applicant must make full disclosure to the ZSE of any factors which could render it a pyramid company, and any existing issuer must consult the ZSE before entering into any commitment, arrangement or agreement which could render it a pyramid company in relation to another issuer.

(2) The ZSE will classify a company as a pyramid company where —

(a) the company —

- (i) may exercise or cause the exercise of 50 *per centum* or more of the total voting rights of the equity securities of another listed company (“listed controlled company”); and
- (ii) derives 50 *per centum* or more of its total attributable income before tax from such listed controlled company;

or

(b) the company’s shareholding in the listed controlled company represents 50 *per centum* or more of its total assets.

(3) The ZSE may, in exceptional circumstances, classify a company as a pyramid company where, in the ZSE’s opinion, the company holds or proposes to acquire a shareholding in a listed controlled company which represents or will represent 50 *per centum* or more of the pyramid company’s total assets, or produces, or is expected to produce, 50 *per centum* or more of its total attributable income before tax.

(4) The ZSE may declassify a company as a pyramid company when it no longer meets the thresholds upon which its classification as a pyramid company was based.

(5) In the event of a company being classified as a pyramid company in terms of subsection (2), the ZSE will take into account the provisions of this section when considering whether or not to grant a listing to, or to maintain a listing of a company which is to become, a pyramid company.

Listing of pyramid companies

336. (1) Applications may be made to the ZSE for the listing of a pyramid company if the pyramid company is a result of an unbundling or partial unbundling transaction. Where the listing of a pyramid company is the result of a partial unbundling, the ZSE will give the pyramid company six months from the date of the unbundling to introduce alternative assets that satisfy the criteria for listing in Part VII. Failure to meet this requirement may result in the company’s suspension and the ultimate termination of its listing.

(2) The ZSE will not grant a listing to a pyramid company formed as the result of an unbundling transaction, or maintain the listing of a company which is to become a pyramid company as a result of an unbundling transaction —

- (a) where the company is or will become a second-stage pyramid company (the pyramid company of another listed pyramid company), unless the ZSE, after being provided with full details of the circumstances, is satisfied that the second-stage pyramid will emerge (or has emerged) fortuitously as a result of a merger or take-over, the prime purpose of which was not the creation of a second stage pyramid company;

- (b) unless—
- (i) the minority holders of equity securities in the listed controlled company are offered equity securities on the same terms as are applicable to the controlling shareholders of the listed controlled company in proportion to their holdings in the listed controlled company; or
 - (ii) the controlling shareholders of the pyramid company give an irrevocable written undertaking to the ZSE that they will not enter into any affected transaction in relation to the pyramid company unless the other party to such affected transaction undertakes to the ZSE to make a comparable offer to the holders (excluding the pyramid company) of the equity securities in the listed controlled company;
- (c) unless the listed controlled company has been listed for more than two years or it satisfies each of the following criteria—
- (i) 50 *per centum* or more of the listed controlled company's total assets or 50 *per centum* or more of its total attributable income before tax is derived from operations which have been listed for at least 12 months;
 - (ii) the listed controlled company is not classified by the ZSE to be a pyramid company;
 - (iii) the management who control the listed controlled company held such control for a continuous period of at least 12 months prior to the listing of the pyramid company;
 - (iv) the management of both the listed controlled company and the proposed pyramid company have been predominantly the same for the period referred to in subparagraph (iii);
 - (v) the listed controlled company has issued audited financial statements covering the period referred to in subparagraph (iii) that have not been qualified by the listed controlled company's auditors;
- and
- (d) unless the cover of the circular relating to the creation of the pyramid company contains a warning that it will reduce the effective voting influence of shareholders in the listed controlled company.
- (3) The ZSE may re-classify a listed pyramid company which ceases to meet the percentages referred to in section 335(2) (classification of pyramid companies).
- (4) The ZSE will not permit a listed controlled company to acquire securities in its listed pyramid company.

(2) Where appropriate, an applicant which seeks a dual listing must be registered as a foreign company in terms of the Companies Act [*Chapter 24:03*] before making application for a listing on the ZSE.

SUB-PART A: PRIMARY LISTINGS

Conditions for primary listing

383. An issuer seeking a primary listing on the ZSE must fully comply with these rules.

SUB-PART B: SECONDARY LISTINGS

Conditions for secondary listing

384. (1) An issuer seeking a secondary listing on the ZSE must—

- (a) comply with the conditions for listing as set out in Part V and, unless otherwise stated in these rules, must disclose full details of the issuer in the pre-listing statement. The conditions for listing in Part V must be read taking into account the jurisdiction in which the issuer is incorporated;

- (c) confirm that the primary listing referred to in paragraph (b) is at least on an equivalent board or exchange to that for which application is being made on the ZSE. The ZSE will therefore not grant a secondary listing to an issuer that has a primary listing on a junior or secondary market of an exchange.

(2) Where an issuer has a secondary listing status, it will be required to comply with the listings requirements of the exchange where it has its primary listing, save as otherwise specifically stated in these rules.

(3) On application, the issuer must confirm to the ZSE that it is in full compliance with the requirements of the exchange or competent authority on which it has its primary listing. The ZSE will require a letter of support from the relevant exchange or competent authority.

(4) The ZSE will not grant a listing or list securities which are not listed in the country of incorporation or in the country of primary listing, unless the issuer can demonstrate that the absence of such a listing is not due to any negative or problematic circumstances, events or regulatory issues.

(5) Issuers must appoint and maintain, in accordance with Part III, a sponsoring broker based in Zimbabwe.

(6) An issuer must have the required spread in accordance with section 87(e) and (f).

Pre-listing statements

385. (1) An issuer must produce a pre-listing statement in compliance with the relevant provisions of these rules, except as otherwise specifically stated in these rules. Where the disclosure requirements of Part VII relate to continuing obligations, the ZSE may allow the issuer to address this in the context of the requirements of the exchange where it has its primary listing. The procedure for approval as contained in Part XVII (documents to be submitted to ZSE) is applicable in such cases.

(2) The issuer must disclose in the pre-listing statement headline earnings per share and diluted headline earnings per share, together with an itemised reconciliation between headline earnings and the earnings used in the calculation.

(3) The ZSE will, for purposes of the pre-listing statement, accept financial information prepared in accordance with the accounting frameworks in Twenty-seventh Schedule.

(4) For purposes of the pre-listing statement, the ZSE may accept extracts of financial information which have been prepared in accordance with subsection (5), provided that—

- (a) the information was published subsequent to the issuer being granted a listing on the exchange where it has its primary listing and in accordance with that exchange's listings requirements;
- (b) the extracts are in compliance with IAS 34 or the equivalent standard of frameworks listed in Twenty-seventh Schedule; and
- (c) the pre-listing statement contains full details of the issuer's accounting policies.

(7) The ZSE may allow issuers to modify the relevant Part I and II documents required by Part XVII where full compliance would be in conflict with the requirements of this Part or the exchange where it has its primary listing.

Continuing obligations

386. (1) The ZSE will allow the requirements of the primary exchange to take precedence in relation to issuers with a secondary listing on the ZSE, except that—

- (a) the annual financial statements and any other communication with shareholders must state where the primary and secondary listings of the issuer's securities are;
- (b) when an issuer wishes to release any information on another exchange, it must ensure that such information is also released on ZSE data portal and that such release takes place no later than the equivalent release on the other exchange:

The announcement must be submitted in accordance with Nineteenth Schedule (corporate actions and other regulatory information submission);

(2) The issuer must, by no later than 31 January of each year, submit details of the volume and value of securities traded over the preceding 12 months on all exchanges where it has a listing, in order for the ZSE to consider the issuer's continued secondary listing status.

(3) If both the volume and value of securities traded on the ZSE over the preceding 12 months exceeded 50 *per centum* of the total volume and total value of securities traded on all exchanges where the issuer has a listing, then the issuer's listing status on the ZSE in respect of those securities may be converted to a primary listing. The converse applies when both the volume and value of securities traded on the ZSE was 50 *per centum* or below.

(4) The issuer must advise its shareholders, by releasing an announcement on the ZSE data portal, each time that its listing status is changed.

Dual listings

387. (1) A company with a dual listing must immediately notify the ZSE in writing of any suspension or termination of listing on any other exchange on which it has securities listed.

A majority of the votes of all shareholders present or represented by proxy at the general meeting, excluding any controlling shareholder, its associates and any party acting in concert, must be cast in favour of such a resolution. A secondary listing on another exchange only requires the approval of the issuer's directors.

(3) An issuer that has applied and has been granted permission for its ZSE-listed securities to be listed on another exchange must ensure that the securities will be accepted for transfer, without delay, if presented in any of the centres in which the securities are listed.

Foreign companies

388. A foreign company with a listing on the ZSE must, whilst it remains listed on the ZSE, appoint and maintain the appointment of, a person authorised to accept service of process and notices on its behalf in Zimbabwe and must notify the ZSE of such appointment and of its termination. (1) A dual listed companies' structure applies to an aggregated group, with combined businesses, accounted for under two separately listed companies, one housing the Zimbabwean-based businesses, with its primary listing on the ZSE, and the other housing the external business entities the overseas listed company with its primary listing on another exchange acceptable to the ZSE. If the primary listing of the overseas listed company is not on the ZSE, then it must have a secondary listing on the ZSE. The Zimbabwean issuer and the overseas issuer together comprise the dual listed company structure.

(2) All conditions for listing in Part V of these rules must be complied with in respect of each company comprising the dual listed company structure in order to be listed on the ZSE.

(3) The proportion of the combined business that each company comprising the dual listed company structure represents should be discussed with the ZSE well in advance of implementing the dual listed company structure in order to obtain the necessary consents or rulings in principle.

(4) The companies in the dual listed company structure must be able to demonstrate that they participate in the control of the combined business. This must be proved by a formal agreement or veto rights or any other mechanisms acceptable to the ZSE.

(5) Every company comprising the dual listed company structure is required to comply with all continuing obligations.

(6) The provisions on related-party transactions set out in Part XI apply to the companies comprising the dual listed company structure, but not in respect of transactions necessary to constitute the DLC structure or transactions between the companies comprising the dual listed company structure or their respective groups.

(7) Variations to any agreement governing the relationship between the companies comprising the dual listed company structure are considered to fall within Part XI.

(8) Transactions undertaken by the companies comprising the dual listed company structure are subject to the transaction requirements set out in Part XI. The categorisation tests must be calculated by comparing the whole of the target with the whole of the dual listed company structure.

(9) The provisions of these rules relating to controlling shareholders apply to a controlling shareholder of any company comprising the dual listed company structure.

(10) Common accounting policies must be used for the companies comprising the dual listed company structure.

(11) Aggregated annual financial statements must be published in accordance with financial standards for the aggregated dual listed company structure. In the event that the annual financial statements published for the aggregated dual listed company structure are not in accordance with financial standards, a comprehensive reconciliation to financial standards must be published and presented in the currency officially in use in Zimbabwe. Annual financial statements for the companies comprising the dual listed company structure may be published as supplementary information to the aggregated accounts of the dual listed company structure.

(14) With respect to any calculations, categorisations, or measurements in terms of the listings requirements applicable to any company comprising the dual listed company structure, the dual listed company will be regarded as one combined entity.

PART XX

DEPOSITORY RECEIPTS

Definitions

390. In this Part—

“depository” means a bank or other institution acceptable to the ZSE which issues depository receipts representing the securities of an issuer that are held in trust by the depository in the issuer's local market.

“depository receipt” or “DR” means an instrument representing an issuer’s securities, where the instrument confers rights in respect of such securities;

- (c) the securities of the issuer must be held by a trust administered by independent trustees representing the interests of the holders of the DRs. The securities may, however, also be held by the depository or through a vehicle other than a trust, provided the ZSE is satisfied that such vehicle or depository provides similar protection to safeguard the securities and, in particular, that the powers and duties of the directors or, in the event that the vehicle is not a company, the persons with corresponding duties and powers in relation to that vehicle, are limited as if the directors were trustees. Thus, the provisions of this paragraph and paragraph (d) that apply to trustees and trusts must apply with any necessary changes to the directors and to the vehicle used to hold the securities;
- (d) the entity referred to in paragraph (c) must hold in trust, for the sole benefit of the holders of DRs, the securities to which the DRs relate, all rights relating to the securities and all the money and benefits that it may receive in respect of them, subject only to payment of remuneration and proper expenses of the entity;
- (e) the DRs must be fully covered at all times;
- (f) the DRs must be fully paid up and freely transferable;

- (j) the entity referred to in paragraph (c) must be independent from the issuer, unless otherwise agreed to by the ZSE, and it must be protected against dissolution or loss of assets should the issuer become insolvent.

(2) An issuer must—

- (a) demonstrate to the ZSE that it meets the listings requirements set out in subsections (1);

- (c) make arrangements to the satisfaction of the ZSE to ensure that sufficient DRs are available on the Zimbabwean DR register.

- (i) the right of DR holders to corporate action entitlements. The deposit agreement should address the rights, if any, of the parties to, and the procedures to be followed in, cash distributions, distributions of shares, rights issues or any other distribution accruing to the securities which the DRs represent, in accordance with Part VI and Part XII or in any other manner acceptable to the ZSE;
- (j) to the extent applicable, the right of DR holders to exercise the voting rights attached to the securities represented by the DRs and the procedures by which DR holders will be notified of shareholder meetings or solicitations of proxy votes and their entitlement to issue instructions to the depository as to how to exercise their voting rights;
- (k) the manner in which any corporate action or other re-classification of the issuer's securities will be represented by and accrue to the DRs in accordance with the principle that holders of DRs must be treated as having generally equivalent rights to holders of the securities which the DRs represent;

- (s) procedures for the amendment of the deposit agreement; and
- (t) the governing law of the deposit agreement. If that law is not Zimbabwean law, it must be one that is generally used in accordance with international practice and is acceptable to the ZSE.

FIFTH SCHEDULE (*Sections 129, 143, 272, 288 and 290*)

PART A

INDEPENDENT FAIRNESS OPINIONS

Scope of this Schedule

The objectives of this Schedule are as follows:—

- (a) to provide sponsoring brokers and issuers with certainty, at an early stage of the process, as to the acceptability or otherwise to the ZSE of a nominated independent professional expert who will issue a fairness opinion;
- (b) to provide guidelines regarding the required quality of independent fairness opinions generally; and
- (b) to ensure consistent and detailed reporting practices with regard to fairness opinions.

As the issues of independence and competence will be unique to every transaction, this schedule provides guidance rather than specific rules. The overriding objective is to ensure that the board of directors receives competent and adequate advice from an acceptable independent and competent third party regarding a transaction. The board of directors must ensure that any director who is party to the transaction (being the subject matter of the fairness opinion) is excluded from the process of mandating the expert and providing the necessary recommendations to shareholders. The issuer must confirm this in terms of the Schedule 5C declaration.

5.1 A fairness opinion must:—

- (a) be prepared by an independent professional expert, acceptable to the ZSE, who has no material interest either in the transaction or in the success or failure of the transaction;
- (b) make appropriate disclosure where the independent professional expert has any existing or continuing relationship with the issuer or any other parties involved in the transaction; and
- (c) set out all of the material factors and assumptions taken into account in the preparation of the statement (as set out in paragraph 5.8 below).

5.2 At an early stage in a contemplated transaction and preferably before engaging a party to prepare a fairness opinion, the sponsoring broker on behalf of the issuer, must submit to the ZSE—

- (a) a declaration of independence completed by the nominated independent professional expert, in the form set out in Schedule 5A;
- (b) a declaration of competence completed by the nominated independent professional expert, in the form set out in Schedule 5B; and
- (c) a declaration by the issuer, in the form set out in Schedule 5C.

The above declarations must be submitted for every transaction.

5.3 The ZSE may, unless the issuer is able to provide additional information to satisfy the ZSE, require the issuer to appoint a different independent professional expert to prepare the fairness opinion if (based on the information received in terms of paragraph 5.2 above and the ZSE's investigation thereof) the ZSE is not satisfied as to—

- (a) the independence of the nominated independent professional expert; or
- (b) the competence of the nominated independent professional expert with regard to the particular transaction; or
- (c) any reasons given by the issuer for the appointment of the nominated professional expert.

5.4 The ZSE undertakes to give the sponsoring broker its approval or disapproval for the appointment of the independent professional expert within 120 hours of receipt of the duly completed declarations required in paragraph 5.2 above. No documentation will be accepted for review by the ZSE until approval for the appointment has been given.

5.5 Before issuing a fairness opinion, the independent professional expert must perform a valuation of the issuer or the subject of the transaction. Where a valuation has been prepared by a competent third party (in respect of assets such as property or mineral reserves and rights, for example), the independent professional expert should set out the manner in which he has satisfied himself or herself that he can rely upon the valuation.

5.6 The ZSE's request for the opinion of an independent professional expert may result in a statement that the transaction is fair. Where this is not the case and the fairness is impaired, the independent professional expert should give full reasons for his opinion in this regard. Even if the opinion is that the transaction is fair, the independent professional expert must, where appropriate, emphasize critical matters upon which it has relied in arriving at the opinion.

- 5.7 The ZSE only requires that the expert opine on the fairness of a transaction though it would allow the expert to opine on the reasonableness, provided detailed disclosure is made in this regard. Fairness is based on quantitative issues and reasonableness on qualitative issues. For illustrative purposes, in the case of a disposal to a related party, the transaction may be said to be fair if the consideration payable by the related party is equal to or greater than the value of the business that is the subject of the transaction. In other instances, even though the consideration may be lower than the value of the business, the transaction may be said to be reasonable in certain circumstances, after considering other significant qualitative factors.
- 5.8 The content of the fairness opinion is at the discretion of the independent professional expert, but must include at least the following basic elements—
- (a) title;
 - (b) addressee;
 - (c) date of statement;
 - (d) opening or introductory paragraph with the purpose for which the report has been prepared;
 - (e) reference to the relevant ZSE listings requirement in terms of which the opinion is being issued;
 - (f) headings identifying the major sections including, but not limited to, introduction, procedures and the opinion;
 - (g) an explanation as to how the terms “fair” and, if so mandated by the board of directors “reasonable”, as indicated in paragraph 5.6 above, apply in the context of the specific transaction;
 - (h) details of the information and sources of information;
 - (i) identification and discussion of both the external and internal key value drivers, sensitivities performed and assumptions used;
 - (j) if applicable, a summary of the manner in which the independent professional expert has satisfied itself as to the appropriateness and reasonableness of the underlying information and assumptions;
 - (k) a full explanation of the significant factors that led to the opinion given;
 - (l) any limiting conditions;
 - (m) the relationships between the issuer and any other parties involved in the transaction, and the independent professional expert, as required by paragraph 5.1(b) above and as identified in the declaration completed in terms of paragraph 5.2(a) above and disclosure of the number and value of shares acquired, if the expert’s fees were paid for in shares;
 - (n) confirmation that a valuation has been performed and identification of the valuation methodologies applied and, where there has been reliance upon a third party valuation, confirmation that the independent expert is satisfied with this valuation;
 - (o) a summary of other factors taken into account or procedures carried out in reaching the opinion;
 - (p) a statement that an individual shareholder’s decision may be influenced by such shareholder’s particular circumstances and, accordingly, that a shareholder should consult an independent adviser if in any doubt as to the merits or otherwise of the transaction;
 - (q) the opinion;
 - (r) the independent professional expert’s name (including registration number if the expert is registered anywhere with any professional body), address and authorised signature; and
 - (s) any other information that the independent professional expert feels is appropriate.
- 5.9 The date on which the opinion is issued must be the same as the date that the directors authorise the submission of the relevant circular to the ZSE for formal approval.
- 5.10 The independent professional expert has a duty to evaluate all the information provided in a critical manner, as required in paragraph 5.8(j) above. This in no way implies that the information must be audited or that the accuracy of all information must be checked. There must be a statement as to how the information has been evaluated and whether or not the expert believes that such information is reasonable, particularly where the information contains forecasts prepared by the management or directors of the issuer. Any statement indicating that there has been no independent verification or any other similar statement would only be permissible subject to the following—
- (a) the experts stating clearly what is meant by “no independent verification”; and
 - (b) such statement not invalidating any work that has been done in terms of this paragraph.
- 5.11 The ZSE has the right, but not the obligation, to request the independent professional expert to—
- (a) clarify any aspect of the statement; or
 - (b) expand the statement so as to address any issues of concern to the ZSE.

After the expiry of the three-month period, the remaining directors shall only be permitted to act for the purpose of filling vacancies or calling general meetings of shareholders.

Such resolution, inserted in the minute book, shall be as valid and effective as if it had been passed at a meeting of directors. They apply also to schemes of all subsidiaries of listed companies.

The ZSE must be consulted on the application of these provisions to schemes intended to apply to employees of associates.

- 14.1 The scheme, which must be approved by shareholders of the listed company or company applying for listing in general meeting prior to its implementation, must contain provisions relating to:

Such adjustments should give a participant entitlement to the same proportion of the equity capital as that to which he or she was previously entitled:

- (a) the issue of securities as consideration for an acquisition or a waiver of pre-emptive rights will not be regarded as a circumstance requiring adjustment; and
 - (b) adjustments, where necessary must be confirmed to the directors in writing by the company's auditors that these are calculated on a reasonable basis.
- 14.3 The scheme must provide, or the circular must state, that the provisions relating to the matters contained in 14.1 above cannot be altered without the prior approval of shareholders in general meeting.

- 14.9 The listed company must, in respect of its own scheme or its subsidiary companies schemes, summarise in its annual financial statements the number of securities which may be utilised for purposes of the scheme at the beginning of the accounting period, changes in such number during the accounting period and the balance of securities available for utilisation for purposes of the scheme at the end of the accounting period.

SIXTEENTH SCHEDULE (*Sections 16, 18 and 20*)

SPONSORING BROKER'S UNDERTAKING

- 16.1 The following must be included in a letter from the sponsoring broker to the ZSE when appointed by an issuer for a specific matter or transaction—
- (a) that they will discharge their responsibility as a sponsoring broker under the listings requirements for the purposes of the appointment;
 - (b) that they will advise the ZSE, in writing, without delay, of their resignation or dismissal from an appointment, giving details of any relevant facts or circumstances and that they should notify the ZSE if they are subject to any disciplinary or legal proceedings together with the fact that they will not perform the role of sponsoring broker unless they are independent except with the specific permission of the ZSE;
 - (c) a description of the interest held by the sponsoring broker, his or her firm and any partner or director of that firm in the issuer or any of its subsidiaries; and
 - (d) that they acknowledge that the ZSE may censure them if the ZSE considers that they are in breach of their responsibilities and that the ZSE may publicise the fact that they have done so and the reasons for their action.

Qualifications

- 16.2 The following criteria must be met by a sponsoring broker in order to satisfy the ZSE that it is competent to fulfil the role of sponsoring broker—
- (a) Employment of staff with relevant experience—
 - (i) a sponsoring broker will be expected to have staff who have considerable relevant corporate finance experience;
 - (ii) a sponsoring broker must be able to demonstrate to the ZSE's satisfaction, that at least three of its executive staff were registered as approved executives by the ZSE and will continue to be so registered subject to paragraphs 16.2 (a)(iv) and 16.14; or
 - (iii) have passed an examination as approved by the ZSE from time to time; and
 - (iv) each have relevant practical experience in advising on the general application of the Listings requirements under the supervision of an Approved Executive in accordance with paragraph (iii) above. Such executive staff will be classified as Approved Executives and recorded as such by the ZSE.
 - (v) an Approved Executive who is providing the supervision referred to in paragraph (iv) above must:
 - A. notify the ZSE in writing at the commencement of the relevant period, providing full details of the candidate; and
 - B. declare to the ZSE at the end of the relevant period, that the candidate is suitable to be an approved Executive who will be able to properly fulfil all the responsibilities of a sponsoring broker.
 - (vi) if a candidate moves from one employer to another and wishes to continue with his programme of practical experience, then arrangements must be made in order that an Approved Executive with the new employer continues with the necessary supervision. Before embarking on this exercise, the Approved Executive must obtain full details of the candidate's previous experience.
 - (vii) from time to time, the ZSE will arrange courses relating to the Listings Requirements and all Approved Executives must attend these in order to remain registered.
 - (viii) the sponsoring broker's Approved Executives must not have been—
 - A. convicted of an offence resulting from dishonesty, fraud or embezzlement;
 - B. censured or fined by a self-regulatory organisation or recognised professional body;
 - C. barred from entry into any profession or occupation; or
 - D. convicted in any jurisdiction of any criminal offence or an offence under legislation relating to the Act, have been a director or alternate director or officer of a company at the time such company was convicted of any similar offence;
 - (ix) if the relevant criteria detailed in paragraph (a)(i) to (iv) above are not satisfied, the ZSE may still accept the applicant as a sponsoring broker provided that such sponsoring broker has demonstrated to the ZSE's satisfaction that it has the necessary expertise and adequacy of staff to properly discharge the responsibilities of a sponsoring broker. In such instance such sponsoring broker must have at least one executive approved as an Approved Executive by the ZSE. In this instance the ZSE will record whichever executive staff members have qualified for Approved Executive classification as well as the details of the other sponsoring broker staff employed ("employment status"). The ZSE reserves the right to review such sponsoring broker's status if and when there is any change to such sponsoring broker's employment status, which must be notified to the ZSE within 48 hours of such change.
 - (b) Adequate supervision of staff—
 - (i) a sponsoring broker must ensure that all staff who do not qualify for registration are supervised and managed by Approved Executives whenever they are involved in sponsoring broker activities; and
 - (ii) a sponsoring broker must have appropriate controls and procedures to ensure that staff involved in sponsoring broker activities do not act beyond their authority.
 - (c) Sufficiency of staff: Arrangements must be in place to ensure that a sufficient number of Approved Executives are always available to ensure that the sponsoring broker's responsibilities are properly discharged at all times.
 - (d) Independence—
 - (i) a sponsoring broker must provide an undertaking that it will not act as a sponsoring broker to any organisation of which it is not independent (except with the specific approval of the ZSE);
 - (ii) a sponsoring broker must provide confirmation of its independence for each corporate action in which it acts as sponsoring broker by completing Seventeenth Schedule and submitting same to the ZSE. A sponsoring broker must also ensure that it is independent of any client to whom it provides sponsoring broker services but which will not necessarily become the subject of a corporate action and will not require the completion of Seventeenth Schedule;

- (iii) the question of a sponsoring broker's independence must be determined in respect of each corporate action;
- (iv) in exercising its independence a sponsoring broker may not control, be controlled by, or be under the same control as an issuer unless the sponsoring broker is acting as joint and non-lead sponsoring broker:
provided that the above will not apply to investment entities where the sponsoring broker's interest arises by virtue of the holdings of its non-managed discretionary clients;
- (v) a normal business relationship between an issuer and any company which is part of the sponsoring broker's group will not usually prohibit a potential sponsoring broker from acting, however, relationships that would give the sponsoring broker's group a material interest in the success of a listing, or other corporate action may result in the sponsoring broker not being independent, and, in such instances, the ZSE must be consulted;
- (v) a sponsoring broker may be the auditor or tax adviser or the reporting accountant to the issuer, provided the ZSE is satisfied that there is an adequate segregation of roles within the sponsoring broker's group;
- (vi) any director or employee of the sponsoring broker that has a significant interest in an issuer, being 3 *per centum* or more for purposes of this requirement, must not be involved in advisory activities of the sponsoring broker in relation to such issuer;
- (vii) an investment of three *per centum* or more in an issuer that is by a sponsoring broker will result in such sponsoring broker not being regarded as independent of such issuer unless the ZSE decides otherwise; and in any case of doubt, the ZSE must be consulted;
- (viii) Notwithstanding the above requirements the ZSE recognizes that it is impossible to anticipate all circumstances under which a sponsoring broker would be deemed not to be independent and accordingly reserves the right to determine the independence of a sponsoring broker after having reviewed the declaration made by the sponsoring broker in Seventeenth Schedule.

The application process

- 16.3 Applications to become a sponsoring broker must be made to the ZSE by submitting the sponsoring broker application form (as set out in paragraph 16.21 below).
- 16.4 An applicant will be required to nominate a person to act as the primary contact with the ZSE concerning the application.
- 16.5 The ZSE will advise the applicant of the result of the application in writing.

Register

- 16.6 A register of sponsoring brokers will be published by the ZSE.

Designations

- 16.7 A sponsoring broker will be able, but not required, to state on its business documentation that it is a sponsoring broker registered with the ZSE and may similarly disclose its approved executives.

Annual confirmation

- 16.8 Sponsoring brokers are required to advise annually the ZSE whether or not it still meets registration criteria.
- 16.9 Individuals who wish to remain as registered approved executives must submit a sworn affidavit to the ZSE by no later than 31 January of each year confirming that they were actively involved in providing advice on the application of the Listings Requirements during the previous twelve months and that they will continue to do so in the next twelve months. Failure to make this submission will result in the removal of the individual from the register.

Issues affecting approved executive status

- 16.10 Whenever an Approved Executive of a sponsoring broker resigns and moves employment to another sponsoring broker, such person must notify the ZSE.

Issues affecting sponsoring broker status

- 16.11 A sponsoring broker, excluding sponsoring brokers appointed in terms of paragraph 16.2 (a)(vi) above, must inform the ZSE within 48 hours, in writing, if any of its Approved Executives leave its employment) and, if such departure causes the sponsoring broker to have less than three Approved Executives in its employ it will have a period of three months in which to conform with the eligibility criteria provided in paragraph 16.2 above, failing which (unless the ZSE provides dispensation in terms of paragraph 16.2 (a)(vi) the sponsoring broker's status will be suspended until such criteria are satisfied. The ZSE will publish such details of the suspension of sponsoring brokers.
- 16.12 A sponsoring broker may resign as a sponsoring broker by giving written notice to the ZSE and the relevant issuer.
- 16.13 If the departure of Approved Executives results in a sponsoring broker no longer having any Approved Executives, the ZSE will suspend the sponsoring broker's status, announcing same through the ZSE Data Portal, until the sponsoring broker meets the criteria in outlined in paragraph 16.2.

16.14 A sponsoring broker must immediately notify the ZSE by e-mail and letter if any of the events below occur:

- (a) any of the sponsoring broker's Approved Executives are:
 - (i) convicted of an offence resulting from dishonesty, fraud or embezzlement;
 - (ii) censured or fined by a self-regulatory organisation, or recognized professional body;
 - (iii) barred from entry into any profession or occupation; or
 - (iv) convicted in any jurisdiction of any criminal offence involving dishonesty or fraud; or

Procedures for submission of corporate actions

- 19.3 All documents submitted to the ZSE must be in PDF and all corporate actions, irrespective of the length or nature must be submitted in Bona Fide PDF form. Key features of the Bona PDF document are—
- (i) It is submitted from an authorised corporate email address of the listed company, its advisors or brokers in compliance with the Listing Rules.
 - (ii) It is accompanied by a covering letter, which letter must be signed by an authorised Investor Relations Officer: this letter will not be published online.
 - (iii) The text needs to incorporate the email, landline and mobile phone of at least 2 authorised officials of the ZSE to enable quick follow up if required.

Summary text for the bona fide pdf document

- 19.5. The ZSE website enables investors to opt in to receive emails of corporate and regulatory press releases.

Rather than just sending out links to the Bona Fide PDF by email, where the content may not be immediately readable, the ZSE will alert the reader of the emails by a summary one paragraph text extract or summary of the announcement in the body of the email.

Initially this text will be generated by the ZSE be accompanied by a disclaimer saying that full information should be sourced from the attachment, the ZSE website and other sources of information for example the relevant company's website.

- 19.7. The ZSE will acknowledge receipt of the email sent from the Listed Companies. If receipt is not acknowledged Investor Relations Officers should follow up with ZSE staff immediately.

Listed companies are required to ensure that their own procedures are fully compliant with these rules and the ZSE will not accept any liability or responsibility for the non-receipt of these reminders as they are sent purely to increase awareness of the document submission procedures.

Broadening the receipt of ZSE communications

- 19.9. The ZSE seeks to broaden its communications to senior executives within listed companies in order to raise awareness of the importance of the communications process in an online environment.

The ZSE will with immediate effect send all communications to the Company Secretary (or primary contact) and cc the FD or equivalent executive. Any notices of non-conformance with these guidelines will also be communicated to the CEO or equivalent.

Brokers and corporate advisers must “cc” investor relations officers

- 19.10. Brokers and corporate advisers are sometimes the agent through which listed companies submit corporate actions.

1.3 Additional Listing Fees

- 0.05% of value of security

* Notes The monetary value of securities for which application for listing is made will be determined as follows:

- (i) The number of securities for which application for listing is made multiplied by the price per security;
- (ii) In respect of capitalisation issue, where no market related price is attributable to the securities to be listed, they will be deemed to have a value calculated by multiplying the number of securities listed by the closing price on the declaration date; and
- (iii) In respect of introductions, where no price is attributable to the securities, they will be deemed to have a value calculated by multiplying the number of securities listed by the closing price on the first day of trading.
- (iv) In respect of each class of security listed, an annual listing fee shall be payable (except during the calendar year in which the first listing of securities is granted) based on the market capitalisation value as at 31 March of each year.

**The fee can be calculated as follows:

- (v) Market capitalisation is calculated by taking the market capitalisation as at 31st March, of the billing year;
- (vi) Find the corresponding market capitalisation tier for the securities
- (vii) Multiply the residual amount of market capitalisation that exceeds the lower limit of the tier by the variable charge;
- (viii) Add result of the above calculation to the minimum fee for the appropriate tier(e.g. Market capitalization of \$205 million-the fee is calculated as \$40,600 + 0.005% * (\$ 205,000,000 - \$100,000,000) = \$45,850.
