

## REVIEWED ABRIDGED CONSOLIDATED FINANCIAL RESULTS FOR THE SIX MONTHS ENDED 31 MARCH 2021

### CHAIRMAN'S STATEMENT

# HIGHLIGHTS

I am pleased to present the Mashonaland Holdings Limited inflation adjusted financial results for the six months ended 31 March 2021.

#### Operating environment

The trading environment continues to be dynamic. The Covid-19 pandemic remained the dominant economic theme during the period, in addition to inflation and low economic activity. While inflation remains high, it has been on a general downward trend, with year-on-year inflation moving from 659.4% in September 2020 to 240.6% in March 2021. The Reserve Bank of Zimbabwe (RBZ) auction market exchange rate has remained stable since its introduction. However, the widening gap between the RBZ auction rate and the non-official rate is a cause for concern.

The commencement of the tobacco marketing season as well as anticipated harvests from the 2020/2021 farming season are expected to lead to an improvement in foreign currency supply. The government led COVID-19 vaccination program is anticipated to result in a decrease in infection rates, which will result in improved economic activity.

#### Property market

The property market remains subdued characterized by limited commercial freehold transactions as the investment climate remains hazy. The few property transactions and developments are mainly concentrated in the residential sector. The COVID-19 pandemic has mainly affected the occupier sub-market with weakening demand mainly for CBD office space. The two-month lockdown period during the trading period affected rental growth as the market could not timely review rentals due to the negative effects of the lockdowns on tenants' rent paying capacity. The development sub-market remains constrained by viability challenges as effective demand remains low against high costs of construction.

#### Inflation adjusted financial performance

Revenue for the six-month period increased by 46% from ZW\$ 102.6million in March 2020 to ZW\$ 149.4million in March 2021. The revenue growth is mainly attributable to periodic rent reviews to hedge against the effects of inflation. Occupancy increased from 77.4% to 79.7%, which also contributed to the revenue growth. Operating expenses to revenue decreased marginally from 47% to 46%.

Operating profit increased by 29% from ZW\$ 64million in 2020 to ZW\$ 83million in 2021 as a result of the revenue growth.

Despite the challenges, collections for the 6 months to March 2021 remained resilient at 94% up from 91% in 2020. The collaborative business relationships with tenants and a robust on-boarding process continue to sustain collections.

#### Investment property

The Company performed an internal open market valuation of its investment property. The portfolio value suffered a 2% loss at 31 March 2021 in comparison with the inflation adjusted valuation performed on open market values as at September 2020. The decrease in the portfolio value is a reflection that rentals remain below optimum levels due to the depressed economic performance. This, notwithstanding, presents an opportunity for the company to further align its rentals as the country's economic forecasts continue to improve.

#### Property development projects

The Company experienced delays in commencement of planned development projects due to COVID-19 induced lockdowns. Following the partial lifting of COVID-19 restrictions, the Company commenced with the construction phase of the 25-unit Bluff Hill housing project. The construction of a model show house is now complete and pre-selling has begun to manage the market risk.

Following the issuance of the Certificate of Compliance by the Ruwa Town Board, the Company has commenced disposals for its 24 fully serviced residential stands in Windsor Park. Disposal of the stands and other non-core assets will provide liquidity to enable the Company to embark on its strategic developments.

Charter House reconfiguration works to a boutique hotel are now expected to commence in the second half of 2021.

#### Dividend

The Board has declared an interim dividend amounting to ZW\$21,932,027. A separate dividend notice will be published in due course.

#### Outlook

The Company remains optimistic to exploit the pockets of growth emerging in the market as the economy weathers the COVID-19 storm. The forecasted GDP growth of 7.4% will, thankfully, improve space demand and effective demand for the company's on-going residential projects. The Company will remain focused on its strategic focus areas of performance optimization, portfolio and revenue streams diversification, a robust corporate governance and most recently digitalization to improve operational efficiency and customer servicing.

#### Appreciation

On behalf of the Board, I wish to express my appreciation to our valued tenants for their continued loyalty and all our other stakeholders for their support. I also wish to express gratitude to our members of staff for their continued dedication to duty in the challenging operating environment. Finally, I would like to thank my fellow Board members for their continued oversight work.

Harare  
28 May 2021

Eng. G. Bema  
Board Chairperson

#### Independent Auditor's Review Conclusion

The abridged inflation adjusted financial statements for the 6 months ended 31 March 2021 have been reviewed by the Group's external auditors, Deloitte & Touche, who have issued an unmodified review conclusion. The engagement partner for the review engagement was Mr. Tumai Mafunga, PAAB practice certificate number 0442.

As a result, the auditors have not issued a review conclusion on the historic financial information.

## REVIEWED ABRIDGED CONSOLIDATED FINANCIAL RESULTS FOR THE SIX MONTHS ENDED 31 MARCH 2021

### Notes to the Abridged Consolidated Financial Statements

#### 1. Basis of preparation and accounting policies

Mashonaland Holdings Limited and its subsidiaries' (the "Group") abridged interim consolidated financial statements have been prepared in accordance with policies consistent with International Financial Reporting Standards (IFRS). The accounting policies used in the current period are consistent with those applied in the period ended 30 September 2020 unless otherwise stated. These abridged interim consolidated financial statements have been prepared under the assumption that the Group operates on a going concern basis.

The abridged interim consolidated financial statements for the six months ended 31 March 2021 have been prepared in accordance with IAS 34 "Interim financial reporting". They do not include all of the information required for full annual financial statements and should be read in conjunction with the audited financial statements for the year ended 30 September 2020.

#### 1.1 Reporting currency

These financial statements are presented in the Zimbabwean currency ("ZW\$"), which was designated as the sole transactional and functional currency through Statutory Instrument 33 of 2019 of 2019 (SI33/19) dated 22 February 2019 and Statutory instrument 142 of 2019 (SI142/19) dated 24 June 2019.

#### 1.2 Hyperinflation

These results have been prepared under the current cost basis in line with the provisions of International Accounting Standards (IAS) 29 – Financial Reporting in Hyperinflationary economies. The Public Accountants and Auditors Board (PAAB) pronounced that the economy is trading under conditions of hyperinflation in line with IAS 29 (Pronouncement 1/2019). The directors have applied the guidelines provided by the PAAB and the accounting bodies and made various assumptions to produce the inflation adjusted financials. The inflation adjusted amounts are the primary set of results. The historic information is supplementary.

The Group used the price indices provided by the Zimbabwe Statistical Office as reported on the Reserve Bank of Zimbabwe website. Below are the indices and adjustment factors used up to 31 March 2021.

	Index	Conversion factor
CPI as at 31 March 2021	2698.9	1.000
CPI as at 30 September 2020	2205.2	1.224
CPI as at 31 March 2020	810.4	3.330

#### 1.3 Valuation of investment properties

An internal valuation of investment properties was carried out to determine fair values at 31 March 2021. The internal valuation was conducted by the company's qualified internal valuation team based on IFRS 13 (Fair Value Measurement) level 3 valuation inputs. An internal valuation was considered appropriate considering the company had performed a comprehensive external valuation at the last reporting date on 30 September 2020.

Significant judgements were applied as at 31 March 2021 as a result of the uncertainties resulting from the hyperinflationary economic environment, market volatility and a lack of comparable market transactions concluded in ZW\$.

#### 14. Going concern

The Directors have satisfied themselves that the Group is in a sound financial position and has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they are satisfied that it is appropriate to adopt the going concern basis in the preparation of the financial statements.

## INDEPENDENT REVIEWER'S REPORT ON REVIEW OF ABRIDGED INTERIM FINANCIAL INFORMATION

### TO THE SHAREHOLDERS OF MASHONALAND HOLDINGS LIMITED

#### Introduction

We have reviewed the accompanying abridged inflation adjusted consolidated statement of financial position of Mashonaland Holdings Limited and its subsidiaries (the Group) as at 31 March 2021, the abridged inflation adjusted consolidated statement of profit and loss and other comprehensive income, abridged inflation adjusted consolidated statement of changes in equity and abridged inflation adjusted consolidated statement of cash flows for the six month period then ended, and a summary of significant accounting policies and other explanatory notes.

Management is responsible for the preparation and fair presentation of this interim financial information in accordance with International Accounting Standard (IAS) 34 – *Interim Financial Reporting*.

Our responsibility is to express a conclusion on this interim financial information based on our review.

#### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information of Mashonaland Holdings Limited is not prepared, in all material respects, in accordance with International Accounting Standard (IAS) 34 – *Interim Financial Reporting* and the requirements of the Zimbabwe Stock Exchange.

The engagement partner on the review engagement resulting in this independent reviewer's report is Tumai Mafunga.
