5 Independent External Auditor's Statement

The abridged interim financial information for the six months ended 31 March 2022 has been reviewed by Grant Thornton Chartered Accountants (Zimbabwe). An adverse review conclusion was issued due to non-compliance with International Accounting Standard (IAS) 21 – *The Effect of Changes in Foreign Exchange Rates*. During the prior and current financial period ended 31 March 2022, the foreign currency denominated transactions and balances of the company were translated into ZWL using the interbank exchange rates/foreign currency auction rates which were not considered appropriate spot rates for translations as required by IAS 21 and its consequential effects on the hyperinflationary adjustments made in terms of International Accounting Standard (IAS) 29 – *Financial Reporting in Hyperinflationary Economies*.

The auditor's review conclusion on the abridged interim financial information for the six months ended 31 March 2022 is available on the websites of the ZSE and the Company or for inspection at the Company's registered office.

The engagement partner responsible is Edmore Chimhowa (Public Practice Certificate Number 0470).

Commentary and overview of results

Volumes

Volumes for the half year were 1199 tonnes, an increase of 2% over the prior year comparative period of 1175 tonnes. Volumes were adversely affected by the delay in getting regulatory approval to extend our barter deal with the Zimbabwe Electricity Transmission and Distribution Company and exchange control delays in getting paid by our Malawi customers which affected further export sales.

We are confident that we will pick up the volume shortfall against budget in the second six months of the year.

Profitability

Pretax profit in historical terms for the six month period was ZWL\$824 million against the prior year comparative period of ZWL\$290 million an increase of 184%.

Inflation adjusted pretax profit reflected an increase of 169% against prior year comparative period.

Statement of financial position

Borrowings have increased from ZWL\$130 million to ZWL\$445 million to finance inventories which have moved from ZWL\$930 million to ZWL\$1,789 billion.

In historical cost terms the value of the company has moved to ZWL\$1,796 billion whilst in inflation adjusted terms to ZWL\$3,007 billion.

Outlook

Exchange rate volatility is a cause for concern, but the upside of which is increased economic activity as consumers invest to hedge their savings. We are therefore forecasting an increase in volume in the second half of the year over the first half.

Dividend

Directors will be considering a final dividend to shareholders at the year end.

To the members of CAFCA Limited

We have reviewed the accompanying inflation adjusted statement of financial position of CAFCA Limited as at 31 March 2022 and the related statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes.

Responsibilities of Management and Those Charged with Governance for the interim financial information

Management is responsible for the preparation and fair presentation of this interim financial information in accordance with International Accounting Standard (IAS)- 34 *Interim Financial Reporting* and the Company's accounting policies, this includes the design, implementation and maintenance of internal controls relevant to the preparation and fair presentation of interim financial information that are free of material misstatement whether due to fraud or error.

Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410-*Review of Interim Financial Information Performed by the*

Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Adverse Conclusion

Non-compliance with International Accounting Standard 21 -The Effects of Changes in Foreign Exchange.

During the prior and current financial period ended 31 March 2022, the foreign currency denominated transactions and balances of the company were translated into ZWL using the interbank exchange rates/foreign currency auction rates which were not considered appropriate spot rates for translations as required by IAS 21. The opinion on the prior year financial statements was modified in respect of this matter and the misstatements have not been corrected in the interim financial information for the six months ended 31 March 2022.

Had the financial statements been prepared in accordance with the requirements of IAS 21, many elements would have been materially different. The effects of the non-compliance with the requirements of IAS 21 have been considered to be material and pervasive to the financial statements as a whole.

Non-compliance with International Accounting Standard (IAS) 29 – Financial Reporting in Hyperinflationary Economies.

Although IAS 29 – *Financial Reporting in Hyperinflationary Economies* has been applied correctly, its application was based on financial information which was not in compliance with IAS 21 as described above. Had the correct base numbers been used, most elements of the financial statements would have been materially different. The impact of the departure from the requirements of these standards is considered material and pervasive to the financial statements for the six months ended 31 March 2022.

Conclusion

Based on our review, except for the issues highlighted in *Basis for Adverse Conclusion* section of our report, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not present fairly, in all material respects the financial position of CAFCA Limited as at 31 March 2022, and of its financial performance and its cash flows for the six months then ended in accordance with International Financial Reporting Standards (IFRSs).
