CHAIRMAN'S STATEMENT FOR THE HALF YEAR ENDED 30 JUNE 2022

I am pleased to present to you Fidelity Life Assurance of Zimbabwe Limited's (the "Group") financial results for the half year January to June 2022. The analysis on the financials is based on both the inflation adjusted and historical cost financial information.

Operating environment in the country

The first half of 2022 was characterised by massive depreciation of the Zimbabwe dollar and a resurgence in runaway inflation. The local currency depreciated by 70% on the Foreign Currency Auction System while monthly inflation returned to double digit figures and averaged 22.4% in the second quarter. Year-on-year inflation increased sharply to 191.6% in June 2022. The global food and energy prices soared due to supply chain constraints induced by the Russia-Ukraine conflict have compounded Zimbabwe's economic fragility.

In the mid-term Budget Review, the Minister of Finance and Economic Development revised the GDP growth projections for 2022 downwards to 4.6% from an initial projection of 5.5% owing to the slowdown in global economic growth, decline in Agriculture output for the 2021-22 season, and declining aggregate demand due to rising inflation. In response to the prevailing economic environment theme, our business is pursuing alternative financial solutions in housing, property development, agriculture, and renewable energy.

Group Financial Performance

The Group recorded net premium written of ZWL1,242 million in inflation adjusted terms and ZWL1,027.9 million in historical cost terms, an increase of 3% and 137% respectively from an inflation adjusted ZWL1,285.8 million and ZWL433.5 million in historical cost terms recorded prior year. The growth is mainly emanating from regular reviews of recurring premiums, new business acquisition and organic growth from the existing book. The Life Insurance businesses are currently the major contributor to total core income growth contributing 80% of the total core income. Total income grew by 379% in inflation adjusted terms to ZWL13,029.5 million from ZWL2,722.7 million recorded in prior period and under historical cost a growth of 1220% was recorded from ZWL1,530.0 million to ZWL20,190.7 million. The growth was underpinned by positive investment returns driven by fair value gains on investment properties and exchange gains on foreign currency denominated assets.

On an inflation adjusted basis, total benefits, claims and other expenses increased by 300% from ZWL2,683.1 million in 2021 to ZWL10,659.3 million in 2022 and under the historical cost terms an increase of 1142% was recorded from ZWL1,312.9 million to ZWL16,309.2 million on the back of significant movements in actuarial liabilities reflecting the growth in assets backing the policyholder's liabilities. Operating and administration expenses were also on the increase mainly driven by inflationary pressures currently obtaining in the operating environment.

The Group recorded an inflation adjusted profit for the period of ZWL2,325.7 million from ZWL934.1 thousand recorded in prior period and a historical profit of ZWL3,845.0 million was posted from ZWL203.5 million recorded in prior period representing a positive growth in the business.

Successful Execution of Strategy

The business has not been spared from the economic effects of the Covid-19 pandemic, the Russia-Ukraine war and the hyperinflationary local environment. However, our management and staff have managed to maintain our business performance at a satisfactory position. We believe the strategies we adopted in our Business Units are increasingly bearing fruit. Our endeavours to grow USD revenue, increase product offering, and customer base have created a strong platform to launch our growth into the future. Key milestones in the period under review include launching a micro-finance product that provides USD loans to vendors in various cities and the solid commercial traction of the Vaka Yako product since its launch to the public on the 22nd of March 2022. These milestones have increased our USD market share in terms of Loan Book Size and Gross Written Premium respectively. We gained new customers and partners, secured new contracts, expanded into new territories, and continued to grow our market share in our target markets.

Delivering a superior client experience: We will continue to focus on delivering an exceptional client experience across the Group, and ensure we continue to serve our customers round the clock through the physical and digital customer touch points.

Creating value for our customers and meeting their evolving needs: New product development remains a critical part of our strategy for this year and going forward as we aim to continually add value to our customers' at every stage of their lives. Our product range continues to evolve in tandem with our customers' ever-changing needs and market conditions. Our priority remains that of incorporating financially inclusive products into our portfolio.

Geographical footprint: As part of our growth strategy, we continue to seek opportunities for the diverse business portfolio growth within Zimbabwe and the region.

Market positioning: With the expansion of our value chain, we will continue to explore the synergies created by our diverse Group as part of the multi-brand integration strategy.

Corporate social investments: The group remains mindful of the environment in which it operates, and community enriching programmes and donations remain at the core of our Corporate Social Responsibility (CSR) activities.

Update on the Regulatory Asset Separation Exercise

The Asset Separation exercise is now in its final transaction stage. We await regulatory approval to finalise the transaction which will see the distinct allocation of assets between policyholders and shareholders. The transaction is expected to be completed by 31 December 2022.

Dividend

In view of the need to preserve internal resources to strengthen the capital position of the Group through the deployment of earnings to increase business underwriting capacity, the Board resolved not to declare an interim dividend for the period under review.

Looking forward

The country has enjoyed relative stability following the introduction of the Gold Coins as an alternative value preservation instrument by the Central Bank at the end of July 2022. New Gold Coins have mopped up liquidity from the market and provided an alternative investment class. The hike in interest rates to 200% per annum has certainly curbed borrowing however it has the real potential of stifling growth and choking genuine business activity. Should the relative currency stability of the past month persist into the last quarter of 2022, we anticipate that Central Bank will review the policy rate downwards to make borrowings more affordable and drive the economic growth agenda. Overall, we expect the macroeconomic environment to remain challenging with inflation remaining undesirably high through to the year end.

Appreciation

On behalf of the Board of Directors, I would like to acknowledge and appreciate the determination and commitment of the Fidelity Life team during the period under review. I would like to extend my gratitude to all our stakeholders for their continued commitment and support of the business. Lastly, I wish to thank my fellow Board members for their unstinting support for the success of all our endeavours as a business.

Notes to the interim condensed consolidated financial statements for the half year ended 30 June 2022

1 DIRECTORS' RESPONSIBILITY STATEMENT

The directors are required by the Companies and Other Business Entities Act (Chapter 24:31) to maintain adequate accounting records and are responsible for the content and integrity of the interim condensed consolidated financial statements and related financial information included in this report. It is their responsibility to ensure that the interim condensed consolidated financial statements fairly present the Group's financial position as at the end of the half year, and the results of its operations and cash flows for the six months then ended, in conformity with International Accounting Standard 34 ("IAS 34"), Interim Financial Reporting.

2 INDEPENDENT REVIEWER'S STATEMENT

The interim condensed consolidated financial statements for the six months ended 30 June 2022 have been reviewed by Grant Thornton Chartered Accountants (Zimbabwe). An adverse review conclusion has been issued thereon with respect to non-compliance with International Accounting Standard (IAS21) the "Effects of changes in foreign exchange rate" and misstatements arising from valuation of investment properties as at 31 December 2021. The Engagement Partner responsible for this review is Farai Chibisa. The review report on these interim condensed financial results is available for inspection at the Company's registered office.

3 ACCOUNTING POLICIES

3.1 Basis of preparation

The interim condensed consolidated financial statements have been prepared in accordance with IAS 34 and the Zimbabwe Stock Exchange listing requirements, except for non-compliance with IAS 21. The financial statements are based on statutory records that are maintained under the historical cost convention basis, except for revaluation of investment properties, land and buildings and financial assets at fair value through profit or loss and insurance and investment contract liabilities that have been measured on a fair value basis. The inflation adjusted financial statements are the primary financial statements of the Group. Adjustments and reclassifications including the restatements to the changes in the general purchasing power of the Zimbabwe dollar for the purpose of fair presentation in accordance with IAS 29 have been made to the historical information.

Historical financial statements have been presented as supplementary information. The interim condensed consolidated financial statements do not include all the notes normally included in an annual financial report. The accounting policies applied in preparing these interim condensed consolidated financial statements are consistent with those of the previous financial year.

3.2 Functional Currency

4

The Group's interim condensed consolidated financial statements are expressed in the Zimbabwe dollar ("ZWL") which is the functional and the presentation currency of the Group.

3.3 Application of IAS 29 (Financial reporting in hyperinflationary Economies)

These interim condensed consolidated financial results have been prepared in accordance with IAS 29 which requires that the financial statements of any entity whose functional currency is the currency of a hyperinflationary economy be stated in terms of the measuring unit current at the reporting date and that corresponding figures for the previous period also be restated in the same terms.

The restatement has been calculated by means of conversion factors derived from the Consumer Price Index (CPI) reported on the Reserve Bank of Zimbabwe website. The indices and adjustment factors used to restate the financial statements at 30 June 2022 are as given below:

	Index	Conversion factor
CPI as at 31 December 2020	2474.51	3.5188
CPI as at 30 June 2021	2986.44	2.9156
CPI as at 31 December 2021	3977.46	2.1892
CPI as at 30 June 2022	8707.35	1.0000

The financial statements of the subsidiary in Malawi which does not report in the currencies of hyper-inflationary economies were dealt with in accordance with IAS 21. The items included in statement of profit or loss and comprehensive income were translated using average exchange rates and statement of financial position items were translated at the closing rates.

The Group's fair values of investment properties are based on property valuations performed by an independent professional property valuer. Gains and losses arising from a change in fair value of investment properties are recognised in the profit or loss statement.

As at 30 June 2022, the fair values of the properties are based on valuations performed by Homelux Real Estate an accredited independent valuer. Homelux Real Estate is a specialist in valuing these types of investment properties and has recent experience in the location and category of the investment properties being valued. Valuation models in accordance with recommendations by the International Valuation Standards Committee have been applied.

There were no transfers between Levels 1 or 2 to Level 3 during the year. The fair value of investment properties is categorised as Level 3. Significant judgements and assumptions were applied for the Group's Investment property portfolio. Land banks and residential properties were valued in Zimbabwe dollar using the market comparison method and the income capitalisation method was used to value commercial properties .

The carrying value of trade and other receivables classified as financial assets at amortised cost approximates their fair value.

There was a significant decline in residential stand sales debtors in the current period as most of the debtors settled their accounts and no new debtors were recognised as the Southview Development Project has reached its tail end. Included in other receivables balance are debtors arising from non core business activities such as rental debtors and debtors arising from disposal of non core assets from the Southview Development Project.

Receivables from related parties, loans to employees and other receivables are shown net of expected credit losses. The amount of expected credit losses for these receivables are as shown in the table below.

The total impairment allowance is made up of the following:

Allowance for expected credit loss on trade receivables
Allowance for expected credit loss on loans to employees
Allowance for expected credit loss on other receivables
Allowance for expected credit loss on related party receivables

Equities at fair value through profit or loss

Listed equities are the only financial instruments held by the Group that are measured at fair value. These are shown as equities at fair value through profit or loss in the statement of financial position. The fair values of the equities are determined as Level 1 fair values in the fair value hierarchy. Level 1 fair values are determined based on observable quoted prices in active markets for identical assets that the Group can access. The Group holds equities listed on the Zimbabwe and Malawi Stock Exchanges.

Contingent liability

Fidelity Life Assurance of Zimbabwe Limited agreed to unconditionally guarantee ZWL37.5 million of the full debt owing to ZB Bank Limited on behalf of Fidelity Life Financial Services (Private) Limited in terms of the overdraft facility that was signed between Fidelity Life Financial Services (Private) Limited and ZB Bank Limited.

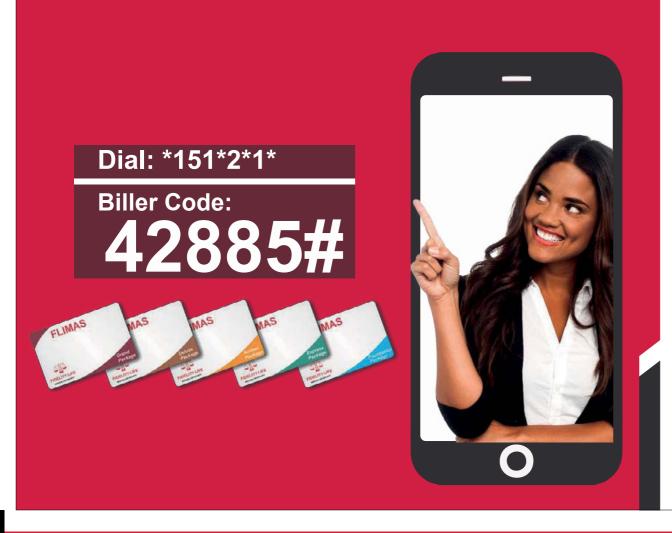

The guarantee covers part of the overdraft with the amount borrowed plus interest and any other charges and shall remain in place until the overdraft is fully paid. Fidelity Life Assurance of Zimbabwe as the Guarantor will duly pay to the Lender ZB Bank Limited the debt and liabilities in terms of the ZB Bank Limited overdraft facility agreement in the event of default by Fidelity Life Financial Services (Private) Limited up to the guaranteed amount.

15 Litigations against the Company

In 2015, Fidelity Life Assurance of Zimbabwe Limited, ("FLA") entered into a sale of shares agreement with CFI Holdings Limited ("CFI") acquiring 80.77% shares in Langford Estates 1962 (Private) Limited, a company whose sole asset is land measuring 834 hectares. The purchase entailed the assumption of CFI Holdings' Limited USD16million debt owed to a consortium of banks by the Company. Subsequently a Debt Assumption and Compromise Agreement was signed between the Company, Langford Estates 1962 (Private) Limited, CFI Holdings, Crest Poultry (Private) Limited t/a Agrifoods, and FBC Bank Limited, Agricultural Bank of Zimbabwe Limited, Infrastructure Development Bank of Zimbabwe Limited, Standard Chartered Bank Zimbabwe Limited and CBZ Bank Limited. The Company assumed the CFI debt and ownership of 80.77% of Langford Estates and duly paid off the debt.

In March 2018, the Company received a letter from CFI contesting the Sale of Shares Agreement and Debt Assumption and Compromise Agreement. The parties failed to reach an amicable resolution and CFI instituted legal proceedings against the Company in the High Court and Arbitration for cancellation of the debt assumption agreement and setting aside of the agreement of sale of shares respectively. Both matters are pending resolution before the two forums. The directors have engaged external legal counsel to defend the interests of Fidelity Life.

To the members of Fidelity Life Assurance of Zimbabwe Limited and its subsidiaries

We have reviewed the accompanying interim condensed consolidated statement of financial position of Fidelity Life Assurance of Zimbabwe Limited and its subsidiaries (the "Group") as at 30 June 2022 and the related consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the six-months then ended, and a summary of significant group accounting policies and other explanatory notes.

Responsibilities of Management and Those Charged with Governance for the interim condensed consolidated financial statements

Management is responsible for the preparation and fair presentation of this interim condensed consolidated financial statements in accordance with International Accounting Standard (IAS) 34, Interim Financial Reporting and the Group's accounting policies, this includes the design, implementation and maintenance of internal controls relevant to the preparation and fair presentation of interim condensed consolidated financial statements that are free of material misstatement whether due to fraud or error.

Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Adverse Conclusion

<u>Non-compliance with International Accounting Standard 21 -The Effects of Changes in Foreign Exchange Rates</u>

During the current financial period, the foreign currency denominated transactions and balances of the Zimbabwe operations and the Group's foreign operations were translated into ZWL using the interbank exchange rates/foreign currency auction rates, which were not considered appropriate spot rates for the Group as required by International Accounting Standard 21 (IAS 21). IAS 21 defines the spot exchange rate as the exchange rate for immediate delivery. During the period, the Group did not participate on the Foreign Exchange Auction Trading System, and was not in a position to exchange ZWL for immediate delivery of other foreign currencies to settle its obligations through the Foreign Exchange Auction Trading System.

During the same period, there were disparities between the auction exchange rates and the rates derived from comparing the market prices of goods and services quoted in both USD and ZWL. These conditions point to the existence of multiple exchange rates. In terms of IAS 21, when several exchange rates are available, the rate used is that at which the future cash flows represented by the transaction or balance could have been settled if those cash flows had occurred at the measurement date.

Had the interim condensed consolidated financial statements been prepared in accordance with the requirements of IAS 21, many elements would have been materially affected. The effects of the non-compliance with the requirements of IAS 21 have been considered to be material and pervasive to the interim condensed consolidated financial statements as a whole.

Valuation of investment property

The investment property balances of the Group as at 31 December 2021, recognised in the consolidated statement of financial position were misstated as management could not provide sufficient appropriate audit evidence to support the assumptions applied by the professional valuers in the valuation of the properties. As a result of the misstatement of opening balances as at 1 January 2022, the fair value gains on properties recognised in the consolidated statement of profit or loss and other comprehensive income for the six months ended 30 June 2022 are misstated.

The opinion for the year ended 31 December 2021 was modified in respect of this matter, and the misstatement has not been corrected in these interim condensed consolidated financial statements in accordance with the requirements of IAS 8 - Accounting Policies, Changes in Accounting Estimates and Errors.

Adverse Conclusion

Based on our review, because of the significance of the matters described in the Basis for Adverse Conclusion section above, the accompanying interim condensed consolidated financial statements do not present fairly, in all material respects the financial position of Fidelity Life Assurance of Zimbabwe Limited and its subsidiaries as at 30 June 2022, and of its financial performance and its cash flows for the six months ended in accordance with International Financial Reporting Standards (IFRSs).
