Due to the need to strengthen the capital position of the Company, the Board resolved not to recommend the declaration of a dividend for the period ended 31 December 2022.

### **Auditor's Statement**

This short form financial announcement derived from the audited consolidated inflation adjusted financial statements of Fidelity Life Assurance of Zimbabwe Limited and its subsidiaries "the Group" for the financial year ended 31 December 2022, should be read together with the complete set of audited consolidated inflation adjusted financial statements of the Group, for the year ended 31 December 2022, which have been audited by Grant Thornton Chartered Accountánts (Zimbabwe). The auditor's report was signed by Farai Chibisa, Registered Public Auditor 0547. An adversé opinion has been issued on the audited consolidated inflation adjusted financial statements of the Group, for the year then ended. The adverse opinion was issued regarding non-compliance with International Accounting Standard (IAS) 21 - The Effects of Changes in Foreign Exchange Rates, valuation of investment property and inclusion of the unaudited financial statements of Vanguard Life Assurance Limited in the consolidated inflation adjusted financial statements.

The auditor's report includes a section on key audit matters outlining matters that, in the auditor's professional judgement, were of most significance in the audit of the consolidated inflation adjusted financial statements. These include valuation of insurance contract liabilities and investment contract liabilities, gross premiums, interest and similar income, loans and advances, and adequacy of allowance for credit losses. The auditor's opinion is not modified in respect of these matters. The auditor's report has been lodged with the Zimbabwe Stock Exchange.

This Short-Form Financial Announcement is the responsibility of the Directors of Fidelity Life Assurance of Zimbabwe Limited and is only a summary of the information contained in the full announcement and does not contain full or complete details. Any investment decisions by investors or shareholders should be based on consideration of the full announcement.

A copy of the full set of the financial statements will be shared with shareholders using the latest e-mail addresses provided by the shareholders and will be available upon request, and for inspection at the Company's registered office at 66 Julius Nyerere Avenue, Harare. The full set of financial statements is also available at no cost on the Zimbabwe Stock Exchange website: www.zse.co.zw and the Company website: www.fidelitylife.

## Audited Financial Results For the year ended 31 December 2022

Condensed Consolidated Statement of Financial Position

### CHAIRMAN'S STATEMENT

I am pleased to present to you the audited financial statements for Fidelity Life Assurance of Zimbabwe Limited (FLA) or the Company together with its subsidiaries (the Group) for the year ended 31 December 2022.

2022 was a year of recovery and growth for the Group as economic fundamentals improved from the tumultuous period during the Covid-19 pandemic. The easing of operational restrictions and full opening of trade the world over gave the business an opportunity to progress its strategic transformation centered on growth and value preservation.

**Uperating Environment**Economic activity was however constrained by poor agricultural output and price instability in 2022. Gross Domestic Product (GDP) is estimated to have registered 4% growth in 2022 down from 8.5% in 2021. Growth was largely driven by Mining and Tourism which registered growth of 10.0% and 56.3% respectively as they took advantage of high commodity prices and the relaxation of Covid-19 restrictions. Agriculture production contracted by 14.1% due to erratic rainfall after growing 17.5% in 2021.

Inflation spiked in Q2 and Q3 2022 due to external factors particularly food and energy prices, foreign currency market distortions, money supply growth and lack of confidence in the Zimbabwean Dollar (ZWL). The depreciation of the ZWL spiralled in Q2 resulting in month-on- month inflation returning to double digit figures and averaged 21.0% between April 2022 and August 2022. Inflation slowed down in the later part of 2022 due to diverse policy measures introduced by the Government and Reserve Bank of Zimbabwe (RBZ) which included interventions largely aimed at stabilising the exchange rate and taming the resurgent inflation through the introduction of the Mosi oa Tunya Gold Coins, value for money policy, and hiking of interest rates

On the upside, Zimbabwe recorded its highest foreign currency receipts in 10 years. Foreign currency receipts for the year amounted to USD 11.6 billion which represents an increase of 17.3% in comparison to the USD 9.9 billion received in 2021. The use of the United States Dollar (USD) gained more prominence in 2022 as evidenced by the increased Foreign Currency Account (FCA) deposits, foreign currency denominated loans and proportion of foreign currency revenue to local businesses.

The Group's strategic choice to focus on core business resulted in positive results, with the Group posting comprehensive income for the year of ZWL 2 616.9 million on an inflation adjusted basis and ZWL 5 376.4 million on a historical cost basis for the year ended 31 December 2022.

Total income grew by 45% in inflation adjusted terms to ZWL16 514.9 million from ZWL11 359.2 million recorded in the prior year and under historical cost a growth of 523% was recorded from ZWL4 979.2 million to ZWL 31 016.6 million prior year and utined relational costs a growth of 523% was recorded front 2044 979.2 filliation to 2045 3 for 10.6 million recorded in the current year. The strong income growth was underpinned by core business net premium written and investment income which increased by 230% and 475% respectively. Growth in net premium written from ZWL982.1 million recorded in prior year to ZWL3 245.1 million was above the inflation rate which stood at 243.76% as at 31 December 2022. The growth is premised on regular reviews of recurring premiums, product modifications, new market segments and leaning towards generating USD revenue to keep up with the volatile economic environment. The gains on investment property show the reflective nature of this asset class in response to the macroeconomic sphere.

On an inflation adjusted basis, total benefits, claims and other expenses increased to ZWL15.678.6 million from ZWL10 060.9 million and under the historical cost terms, an increase of 571% was recorded from ZWL4 318.0 million to ZWL28 990.0 million on the back of significant movements in actuarial liabilities reflecting the growth in asste backing the policyholders' liabilities. The net claims ratio closed the year at 41%, whilst operating and administration expenses were on the increase driven by the obtaining inflationary pressures.

The FLA Group continued to prioritize product innovation and access to new market segments. Deliberate focus was put towards understanding both broad and individual needs of selected market segments and this resulted in development and introduction of a wide array of tailor-made products during the year. In support of the product offering and roll out, the Group pursued an aggressive digital strategy to ensure maximum leveraging of best suited technological systems and electrons.

Value creation, growth and preservation of policyholders and shareholders investments remained at the center of all our operations. This broad objective influenced all investment decisions in capital, money, and real estate markets. The Group has since registered a Real Estate Investment Trust (REIT) to spearhead value creation and infrastructure development through public and private partnerships projects.

A combination of these investments coupled with a robust product offering such as "Vaka Yako" saw the business growing in real terms fueled by organic growth and significant on-boarding of new clients. Diligent updating of products and services enabled the Group to remain relevant and served well in buttressing the continued business growth.

The Fidelity Life Assurance of Zimbabwe brand remains grounded in the fundamental trust and service history entrenched The Floeinty Life Assurance of zimoaowe brand remains grounded in the fundamental trust and service nistory eimenched in its heritage and rich history. The business' desire to push the brand is a direct result of decades of the trust our customers have in us to protect what they value most and deliver on our promises. The Group received several accolades across various business disciplines in recognition of its contribution to the industry namely second runner up Best Risk Management Insurance Company, Transformation Management of the Year and Internal Audit and Compliance Insurance Company of the Year. The various awards give confidence in our value proposition which we will continue to build on throughout 2023.

Following the integration of the business into the ZHL Group, FLA has adopted the Eagle Culture as part of its transformational journey and service commitment. The new Culture aims at inculcating the characteristics of an Eagle in daily operations with the ultimate objective of amplifying the business' value proposition to all our strainfeloiders. At the core of the new Culture is the desire to ensure long-term quality service delivery as part of the overall strategic intent. The Board is confident that the inward effort towards cultural transformation is in sync with the Group wide renewed focus on provision of a 360 degrees product portfolio driven by diverse individual needs. The Board strongly believes that the right culture has immeasurable benefit for all stakeholders

### Update on the Regulatory Asset Separation Exercise

The asset separation proposal and requirements were submitted to the Insurance and Pensioners Commision of Zimbabwe. A final position on the matter is expected soon.

Due to the need to strengthen the capital position of the Company, the Board resolved not to recommend the declaration of a dividend for the period ended 31 December 2022.

As the Zimbabwean economy continues to progress on a stable path with continued Government intervention and regulatory policies that stimulate growth, the Group is optimistic about the future. The FLA team remains focused on executing the business model of resilience and growth centered on providing adaptive insurance, health and financial services solutions driven by customer's needs in the obtaining operating environment. The focus on innovative products is intended to maximize long-term value creation for our stakeholders. The diverse and disruptive products introduced to carefully selected market segments during the year have certainly begun to bear fruit and this is a testament to the Group's drive towards innovation

The Group remains committed to play its part in Government national programs such as the NDS1 which focuses on creating an upper middle-income society by 2030 through achieving sustainable development and products and services that are aligned to the growth trajectory. The Group will continue to seek both private and public partnerships for housing and infrastructure development projects.

We remain optimistic about future business prospects given the Group's strong fundamentals, opportunities embedded in being part of the ZHL ecosystem, demonstrated capabilities and the team spirit of our Employees, Management, and the Board of Directors.

In closing and on behalf of the Board of Directors, I would like to express our gratitude to our valued shareholders and

AUDITOR'S STATEMENT

This short form financial announcement derived from the audited consolidated inflation adjusted financial statements of Fidelity Life Assurance of Zimbabwe Limited and its subsidiaries "the Group" for the financial year ended 31 December 2022, should be read together with the complete set of audited consolidated inflation adjusted financial statements of the Group, for the year ended 31 December 2022, which have been audited by Grant Thomton Chartered Accountants (Zimbabwe) and the auditor's report signed by Farai Chibisa, Registered Public Auditor 0547.

An adverse opinion has been issued on the audited consolidated inflation adjusted financial statements of the Group, for the year then ended The adverse opinion was issued regarding the following:

- Non-compliance with International Accounting Standard (IAS) 21 The Effects of Changes in Foreign Exchange Rates; Non-compliance with International Accounting Standard (IAS) 8 Accounting Policies, Changes in Accounting Estimates and Errors; Valuation of investment property; and Inclusion of the unaudited financial statements of Vanguard Life Assurance Limited in the consolidated inflation adjusted financial statements of Fidelity Life Assurance of Zimbabwe Limited and its subsidiaries.

The auditor's report includes a section on key audit matters outlining matters that, in the auditor's professional judgement, were of most significance in the audit of the consolicated inflation adjusted financial statements. The key audit matter was with respect to valuation of insurance contract liabilities and investment contract liabilities, gross premiums, interest and similar income, loans and advances and adequacy of allowence for credit losses on trade and other receivables. The auditor's opinion is not modified in respect of this matter.

The auditor's report on the consolidated inflation adjusted financial statements and the full set of the audited consolidated inflation adjusted financial statements, is available for inspection at the company's registered office and the auditor's report has been lodged with the Zimbabwe Stock Exchange.

### ACCOUNTING POLICIES

### 3.1

Basis of preparation
The Group's financial Statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), and in the manner required by the Zimbabwe Companies and Other Business Entities Act (Chapter 24:31) except for non-compilance with IAS 21. The effects of changes in foreign exchange rates' and IAS 8. Accounting policies - Changes in accounting policies, estimates and errors" in 2019 and the consequent adjustments made in terms of IAS 29 Financial reporting in hyperinflationary economies. The financial statements are based on statutory records that are maintained under the historical cost convention basis, except for revaluation of investment properties, land and buildings and financial assets at fair value through profit or loss and insurance and investment contract liabilities that have been measured on a fair value basis. The Group adopted IAS 29 "Financial Reporting in hyperinflationary economies" as proclaimed by the local accounting regulatory board, Public Accountants and Auctions Board "PAAB".

The accounting policies applied in preparing these condensed consolidated financial statements are consistent with those of the previous

### Notes to the Condensed Consolidated Financial Statements (continued) For the year ended 31 December 2023

Functional Currency
The Group's condensed consolidated financial statements are expressed in the Zimbabwe dollars (ZWL) which is the functional and presecurency of the Company.

Application of IAS 29 (Financial reporting in hyperinflationary Economies)
These financial results have been prepared in accordance with IAS 29 which requires that the financial statements of any entity whose functional currency is the currency of a hyperinflationary economy be stated in terms of the measuring unit current at the reporting date and that corresponding figures for the previous period also be restated in terms of the same measuring unit.

### Application of IAS 29 (Financial reporting in hyperinflationary Economies) (continued)

The restatement has been calculated by means of conversion factors derived from the Consumer Price Index (CPI) reported on the Reserve Bank of Zimbabwe website. The indices and adjustment factors used to restate the financial statements at 31 December 2022 are as given below:

	HIGGA	OUTVETSION IUCIO
CPI as at 31 December 2021	3977.46	3.4376
CPI as at 31 December 2022	13672.91	1.0000

The financial statements of the subsidiary in Malawi which does not report in the currencies of hyper-inflationary economies were dealt with in accordance with IAS 21. The items included in statement of profit or loss and comprehensive income were translated using average exchange rate and statement of financial position items were translated at the closing rates...

The Group 's fair values of investment properties are based on property valuations performed by an independent professional property valuer. Gains and losses arising from a change in fair value of investment properties are recognised in the profit or loss statement.

As at 31 December 2022, the fair values of the properties are based on valuations performed by Homelux Real Estate an accredited independent valuer. Homelux Real Estate is a specialist in valuing these types of investment properties and has recent experience in the location and category of the investment properties being valued. Valuation models in accordance with recommendations by the International Valuation Standards Committee have been applied.

There were no transfers between Levels 1 or 2 to Level 3 during the year. The fair value of investment properties is categorised as level 3

Significant judgements and assumptions were applied for the Group's Investment property portfolio. Land banks and residential properties were valued in Zimbabwe dollar using the market comparison method and the income capitalisation method was used to value commercial properties

The carrying value of trade and other receivables classified as financial assets at amortised cost approximates their fair value. There was a significant decline in residential stand sales debtors in the current period as most of the debtors settled their accounts and no new debtors were recognised as the Southview development project has reached its tail end. Included in other receivables balance are debtors arising from non core business activities such as rental debtors and debtors arising from disposal of non oze assets from the Southview development project. Receivables from related parties, loans to employees and other receivables are shown net of expected credit losses. The amount of expected credit losses for these receivables are as shown in the table below.

### LITIGATIONS AGAINST THE COMPANY

In 2015, Fidelity Life Assurance of Zimbabwe, (FLA) entered into a sale of shares agreement with CFI Holdings Limited (CFI) acquiring 80.77% shares in Langford Estates Private Limited, a company whose sole asset is land measuring 83.4 hoctares. The purchase entailed the assumption CFI Holdings (USDI 6 million debt owed to a consortium of barks by FLA. Subsequently a Debt Assumption and Compromise Agreement was signed between Fidelity Life, Langford Estates (1962) (Private) Limited, CFI Holdings, Crest Poultry (Private) Limited t/a Agrifoods, and FBC Bank Limited, Agricultural Bank of Zimbabwe Limited, Infrastructure Development Bank of Zimbabwe Limited, Standard Chartered Bank Zimbabwe Limited, and CBZ Bank Limited. Fidelity assumed the CFI debt and ownership of 80.77% of Langford Estates and duly paid of the debt.

In March 2018, FLA received a letter from CFI contesting the Sale of Shares Agreement and Debt Assumption and Compromise Agreement. The parties failed to reach an amicable resolution and CFI instituted legal proceedings against FLA in the High Court and Arbitration for cancellation of the debt assumption agreement and setting aside of the agreement of sale of shares respectively. Both matters are pending resolution before the two forums. The directors have engaged external legal counsel to defend the interests of Fidelity Life.

### Report on the Audit of the Consolidated Inflation Adjusted Financial Statements

### Adverse Opinion

We have audited the consolidated inflation adjusted financial statements of Fidelity Life Assurance of Zimbabwe Limited, which comprise the consolidated statement of financial position as at 31 December 2022, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and the notes to the consolidated inflation adjusted financial statements, including a summary of the Group's significant accounting policies.

In our opinion, because of the significance of the matters described in the *Basis for Adverse Opinion* section of our report, the consolidated inflation adjusted financial statements do not present fairly, in all material respects, the financial position of Fidelity Life Assurance of Zimbabwe Limited as at 31 December 2022, and its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

### **Basis for Adverse Opinion**

Non-compliance with International Accounting Standard (IAS) 21 - The Effect of Changes in Foreign Exchange Rates in the prior financial years

During the period from 22 February 2019 up to 22 June 2020, the foreign currency denominated transactions and balances of the Group and Company were translated into ZWL using interbank exchange rates, which were not considered appropriate spot rates for translations as required by International Accounting Standard (IAS) 21, 'The Effects of Changes in Foreign Exchange Rates'. The opinion on the prior year consolidated inflation adjusted financial statements was modified in respect of this matter and the misstatements have not been corrected in the consolidated inflation adjusted financial statements for the year ended 31 December 2022.

Had the financial statements been prepared in accordance with the requirements of IAS 21, certain elements would have been materially different. The effects of the non-compliance with the requirements of IAS 21 have been considered to be material but not pervasive to the consolidated inflation adjusted financial statements.

### Valuation of investment property

In performing the property valuations as at 31 December 2021, inappropriate void rates were used. In addition, the lettable space for multi-tenanted commercial property included common areas, for which rental per square metre had already been included in the rentals per square metre charged to tenants. In the prior year, sufficient appropriate audit evidence was not provided to support the valuator's assumptions in this regard. The opinion on the prior year consolidated inflation adjusted financial statements was modified in respect of this matter and the misstatements have not been corrected in the separate inflation adjusted financial statements for the year ended 31 December 2022 in accordance with International Accounting Standard (IAS) 8, 'Accounting Policies, Changes in Accounting Estimates and Errors'. As a result, the opening investment property balances of the Company as at 1 January 2022 recognised in the separate statement of financial position, and the fair value gains on investment properties recognised in the separate statement of profit or loss and other comprehensive income for the year ended 31 December 2022 are misstated. The effects on the separate inflation adjusted financial statements of this misstatement have not been determined.

Inclusion of the unaudited financial statements of Vanguard Life Assurance Limited in the consolidated inflation adjusted financial statements of Fidelity Life Assurance of Zimbabwe Limited

The consolidated inflation adjusted financial statements include unaudited financial statements of Vanguard Life Assurance Limited, a significant component of Fidelity Life Assurance of Zimbabwe Limited and its subsidiaries. As a result, we were unable to satisfy ourselves that all necessary adjustments and disclosures have been made to the unaudited financial statements of Vanguard Life Assurance Limited for the year ended 31 December 2022. Accordingly, we were unable to determine the effect of this on the consolidated inflation adjusted financial statements of Fidelity Life Assurance of Zimbabwe Limited and its subsidiaries for the year ended 31 December 2022.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated inflation adjusted financial statements of the current year. These matters were addressed in the context of our audit of the consolidated inflation adjusted financial statements as a whole and we did not provide a separate opinion on these matters. The key audit matters noted below relate to the annual consolidated inflation adjusted financial statements:

### **Key Audit Matter**

## Valuation of insurance contract liabilities and investment contract liabilities

As at 31 December 2022 the Group had insurance contract liabilities amounting to ZWL 24 458 354 615, investment contract liabilities discretionary participation amounting to ZWL 12 461 018 797 and investment contracts without discretionary participation features amounting to ZWL 5 589 813 223. The Company had insurance contract liabilities amounting to ZWL 11 254 755 431, investment discretionary liabilities with contract participation features amounting to ZWL 12 461 018 797 and investment contracts without discretionary participation features amounting to ZWL 5 589 813 223 (Refer to Note 11).

We considered the valuation of insurance contract liabilities and investment contract liabilities to be a matter of most significance to our current year audit of the consolidated and separate inflation adjusted financial statements due to the following:

- Data is a key input into the valuation process. The calculation of insurance contract liabilities has a number of inputs, which are reliant on various processes and systems for accurate and complete data. A breakdown of these processes and systems could result in a misstatement of the value of insurance contracts.
- The valuation of the Group insurance contract liabilities involves complex calculations, significant judgements, and long and short term estimates and assumptions.
- The methodology involves judgements about future events, both internal and

### How our audit addressed the Key Audit Matter

### Our audit procedures included the following:

- We assessed the design and operating effectiveness of the key aspects of the control environment over data integrity, evaluation of the includina information of the effectiveness technology (IT) environment over the policy administration systems and the actuarial valuation systems, together with the data extraction and conversion processes.
- We assessed the design and operating effectiveness of the key controls of the actuarial valuation process for the setting and updating of actuarial assumptions and the process for model and methodology changes.
- Reviewed management's key assumptions around mortality, longevity, disability, morbidity, persistency and expenses and assess the results of management's experience analyses.
- Compared the mortality tables against the standard actuarial mortality tables to assess the reasonableness of the assumptions.
- Assessed whether discount rates used reflect the nature of the assets backing the insurance contract liabilities and also whether they reflect the conditions of the market in which these assets are held.
- Compared the actual emerging claims for prior years against the provision for the same period to assess the reasonableness of management's previous provisions.
- Assessed the valuation basis through discussion with the statutory actuaries and assess its appropriateness, given the

- external to the Group; and the value of the Group insurance contract liabilities is significant to the Consolidated inflation adjusted financial statements.
- The main valuation assumptions include mortality, expenses, expense inflation, discount rates and lapses, previous experience in claim patterns, claim settlement patterns, trends in claims frequency.
- nature of the business as well as actuarial best practice.
- Compared the mortality, expenses, expense inflation, discount rates and lapses, previous experience in claim patterns, claim settlement patterns and trends in claims frequency to the prior year valuation in order to test whether they were consistently applied by management.
- Assessed whether discount rates used reflect the nature of the assets backing the insurance contract liabilities and also whether they reflect the conditions of the market in which these assets are held.
- Compared the actual emerging claims for prior years against the provision for the same period to assess the reasonableness of management's previous provisions.
- We satisfied ourselves that the valuation of insurance/reassurance contract liabilities is appropriate.

### Gross premiums recognition

• There is a presumed fraud risk with regards revenue recognition as guided by International Standard on Auditing (ISA 240: Revised). There is a risk that gross premiums are presented at amounts higher than what has been actually generated by the Group. This is a significant risk and accordingly a key audit matter. Our audit procedures incorporated a combination of tests of the Group's controls relating to gross premiums recognition and the appropriateness of premiums recognition policies as well as substantive procedures in respect of testing the occurrence assertion. Our substantive procedures included but were not limited to the following:

- Reviewed that gross premiums recognition criteria is appropriate and in line with the requirements of IFRS 4.
- Identified key controls and tested these controls to obtain satisfaction that they were operating effectively for the year under review.
- Tested the design and operating effectiveness of internal controls implemented as well as test of details to

## Adequacy of allowance for credit losses on trade and other receivables

The Group has trade and other receivables amounting to ZWL 3 654 064 843.

This was considered an area of focus as IFRS 9 requires management to exercise significant judgement using subjective assumptions when determining both timing and amounts of the impairment provision for trade and other receivables.

Key areas of judgement included:

- The interpretation of the requirements to determine impairment under application of IFRS
   9, which is reflected in the Group's expected credit loss model; and
- Assumptions used in the expected credit loss model such as the financial condition of the counterparty, expected future cash flows and forward looking macroeconomic factors (e.g. exchange rates, interest rates, gross domestic product growth, inflation).

ensure accurate processing of premiums transactions.

- The results of our controls testing have been the basis for the nature and scoping of the additional test of details, which mainly consisted of testing individual transactions by reconciling them to external sources (supporting documentation).
- Performed cut-off tests on year end balances to ensure premiums are recognised in the correct period.
- Analytical procedures and assessed the reasonableness of explanations provided by management.

We satisfied ourselves that the recognition of gross premiums is appropriate.

### Our audit procedures included the following:

Assessed management's allowance for credit losses, which included the following:

- We performed an assessment of the modelling techniques and methodology used against the requirements of IFRS 9;
- We assessed and tested the modelling assumptions with a focus on the:
  - Key modelling assumptions adopted by the Group;
  - ii. Reliability of the historical data collected; and
  - iii. Appropriateness of macroeconomic factors used.
- We examined a sample of exposures and performed procedures to evaluate the:
  - Timely identification of exposures with a significant deterioration in credit quality; and
  - ii. Expected loss calculation for exposures assessed on an individual basis.

We assessed the adequacy of the disclosures in the consolidated inflation adjusted financial statements.

Based on our audit work performed, the assumptions used by management were appropriate. Our audit procedures included the following: Loans and advances Our audit procedures include testing of Loans and advances form a major portion of the Bank's assets, and due to the significant design, existence and operating effectiveness judgement using subjective assumptions over of internal controls implemented as well as test of details to ensure accurate processing both when and how much to record as loan impairment, and estimation of the amount of of loans and advances. We obtained understanding of the the impairment provision for loans and Bank's key credit processes comprising advances, this audit area is considered a key and booking, monitoring granting, audit risk. provisioning of loans. We identified key controls involved in the issuance of loans and tested these controls to obtain satisfaction that they were operating effectively for the year under review. The results of our controls testing have been the basis for the nature and scoping of the additional test of details, which included recomputation of loan balances and reconciling them to loan system balances. We reviewed the ECL model and reasonableness the assessed provision and checked the allowance for credit losses calculations. We performed analytical procedures and assessed the reasonableness of explanations provided by management. We satisfied ourselves that the Group's loan criteria recognition advances adequate and appropriate. Our audit procedures included the following: Interest and similar income Overstatement of interest income and similar Our audit procedures include testing of operating income. and existence design, controls effectiveness of internal

Interest income is a key measure used to evaluate the performance of the Group. There is a presumed fraud risk with regards to revenue International guided by recognition as Standard on Auditing (ISA 240). There is a risk that the income is presented at amounts higher than what has been actually generated by the Group. This is a significant risk and accordingly a key audit matter.

- implemented as well as test of details to ensure accurate processing of interest and similar income.
- We identified key controls and tested these controls to obtain satisfaction that they were operating effectively for the year under review.
- The results of our controls testing have been the basis for the nature and scoping of the additional test of details, which mainly consisted of testing individual transactions by reconciling them to external sources (supporting documentation).
- Furthermore, we performed analytical assessed and procedures reasonableness of explanations provided by management.

We satisfied ourselves that the Group's interest and similar income recognition criteria is adequate and appropriate.

### Other information

The Directors are responsible for the other information. The other information comprises the 'Corporate information', 'Directors' report, 'Corporate governance', 'Chairman's report', and 'Chief Executive Officers' report', which we obtained prior to the date of this auditor's report. The other information does not include the consolidated inflation adjusted financial statements and our auditor's report thereon. Our opinion on the consolidated inflation adjusted financial statements does not cover the other information and we do not express any form of assurance or conclusion thereon.

In connection with our audit of the consolidated inflation adjusted financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated inflation adjusted financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Inflation Adjusted Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated inflation adjusted financial statements in accordance with International Financial Reporting Standards (IFRSs), and for such internal control as management determines is necessary to enable the preparation of consolidated inflation adjusted financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated inflation adjusted financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## Auditor's Responsibilities for the Audit of the Consolidated Inflation Adjusted Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated inflation adjusted financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated inflation adjusted financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated inflation adjusted
  financial statements, whether due to fraud or error, design and perform audit procedures
  responsive to those risks, and obtain audit evidence that is sufficient and appropriate to
  provide a basis for our opinion. The risk of not detecting a material misstatement resulting
  from fraud is higher than for one resulting from error, as fraud may involve collusion,
  forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing
  an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of
  accounting and, based on the audit evidence obtained, whether a material uncertainty
  exists related to events or conditions that may cast significant doubt on the Group's ability
  to continue as a going concern. If we conclude that a material uncertainty exists, we are
  required to draw attention in our auditor's report to the related disclosures in the
  consolidated inflation adjusted financial statements or, if such disclosures are inadequate,
  to modify our opinion.
- Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated inflation adjusted financial statements, including the disclosures, and whether the consolidated inflation adjusted financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the
  entities or business activities within the Group to express an opinion on the consolidated
  inflation adjusted financial statements. We are responsible for the direction, supervision
  and performance of Group's audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated inflation adjusted financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on Other Legal and Regulatory Requirements

In our opinion, except for the effects of the matters described in the Basis for Adverse Opinion, the consolidated inflation adjusted financial statements have been properly prepared, in all material respects in accordance with the requirements of the Companies and Other Business Entities Act (Chapter 24:31).

The engagement partner on the audit resulting in this Independent Auditor's Report is Farai Chibisa.
