

# LAFARGE CEMENT ZIMBABWE LIMITED ABRIDGED AUDITED FINANCIAL RESULTS FOR THE YEAR ENDED 31 DECEMBER 2022

Quality through generations

## CHAIRMAN'S STATEMENT

On behalf of the Board of Directors, I present the Company's audited financial results for the year ended 31 December 2022. Due to circumstances beyond the control of the Company, these results are being published late. In the intervening period and prior to publication of these results, the requisite approvals were sought from the Zimbabwe Stock Exchange and granted. The relevant notices were published in various media platforms.

### Overview

The first half of the 2022 financial year was characterised by monetary policy fragility which led to aggressive inflation and depreciation of the foreign currency exchange rate. As a result, the monetary authorities implemented tight policy measures, including an upward review of the bank interest rate from 80% to 200%. These policy measures led to monthly inflation coming down from a 23-month high of 30.7% in June 2022 to close the year at 2.4% in December 2022. Annual inflation closed 2022 at 243.7%, up from 60.7% in the previous year, reflecting the inherent vulnerabilities in the local currency and the general pricing of goods and services. The country's overall economic performance was suppressed, with an annual growth of 3.0% in 2022 (2021: 6.3%) against a target of 3.9%.

The influx of cheap imported cement posed a serious threat to the domestic industry which has enough capacity to meet national demand. Constructive engagement continued with the regulatory authorities in an endeavour to obtain the required support.

The Company resumed production of cement at both mills in mid-February 2022 following the October 2021 incident which resulted in the roof over both cement mills collapsing. During the second half of the year, the Company successfully commissioned the Vertical Cement Mill (VCM) and subsequently decommissioned Mill 1 which had the least capacity. The VCM doubled the Company's milling capacity to 1 million tons per annum and bolstered its ability to supply high strength cement of improved quality and, at the same time, reduced the production costs. In December 2022, there was a change of the Company's majority shareholding which saw a local consortium acquire the 76.4% stake in the business, previously held by Associated International Cement Limited. Accordingly, the Company embarked on a transformation and rebranding journey in line with the changes in the majority shareholding.

### Strategic Agenda

The Company implemented the Lafarge Holcim 2022 Vision – Building for Growth, focusing on the key strategic pillars of Winning at the Customer, Creating Sustainable Industrial Performance, Building Winning Teams and Restoring Profitability.

### Health, Safety and Environment

Health, safety and environmental issues continue to be at the core of the Company's values, supported by policies and programs tailored to achieve zero harm in its operations. The Company has a zero-tolerance attitude towards negligence in the workplace. Health, safety, environment and quality systems are continually upgraded and improved, in line with world class standards to enhance performance in accordance with the Company's Zero Harm policy.

The Board and Management are committed to providing a safe and healthy working environment for employees, contractors and all our stakeholders. During the year under review, it is pleasing to report that no fatalities or serious injuries were recorded at any of the Company's operations or projects. During the same period, the Company did not incur any environmental penalties.

### Inflation Adjusted Financial Performance

Inflation adjusted revenues were constant at ZWL 24.4 billion (2021: ZWL 24.7 billion) over the comparative period. Cement production volumes decreased by 15% as a result of the cement mill roof collapse incident. Production ramp up after the commissioning of the VCM was also slow as tests had to be conducted before the mill could perform at optimal levels. Sales volumes decreased by 19% in line with the trend in production volumes. The Company also witnessed increased costs as a result of increased third party and plant maintenance costs. Consequently, margins dropped to 31% compared to 49.6% in the prior year.

The Company managed to maintain a tight control over its operating expenditure as total expenses increased by 35.6%. Distribution expenses declined by 43.5% whilst administrative costs increased by 145.9% mainly driven by fair value adjustment of Treasury bills as well as increased depreciation on revalued assets.

Despite the operating cost containment efforts, the lower volumes and inflationary pressures weighed down the overall performance of the Company to a loss before tax of ZWL 21.5 billion compared to loss before tax of ZWL 1 billion in 2021. Exchange losses increased by 483% and were the major driver of the decline in profitability.

The Dry Mortars business performance was adversely affected by raw material shortages, including key imported materials, owing to foreign currency shortages.

### Borrowings

The Company had long term borrowings of ZWL 30 billion for the year under review (2021: ZWL 12.5 billion) inflation adjusted.

### Hyperinflation and Regulatory Environment

As previously reported, the Public Accountants and Auditors Board (PAAB), declared that Zimbabwe met the conditions for financial reporting of an economy in hyperinflation with effect from 1 July 2019. Consequently, all entities reporting under International Financial Reporting Standards (IFRSs) are required to comply with International Accounting Standard (IAS) 29 'Financial Reporting in Hyperinflationary Economies'. The business therefore continues to present hyperinflation adjusted financial statements on which the commentary is based. Historical information has been presented as unaudited supplementary information.

### Capital Expenditure

The business concluded the implementation of the previously announced USD 25 million capital expansion program. The final phase of this three-pronged investment plan was the commissioning of the VCM in 2022, following the successful installation of alternative power infrastructure in 2020 and the completion of the automated Dry Mortars plant in 2021.

### Board and Management

Mr. Geoffrey Ndugwa resigned as Chief Executive Officer and a member of the Board of Directors with effect from 1 December 2022. He was replaced by Mr. Innocent Chikwata. The Board is confident that Mr. Chikwata will lead the business effectively to deliver shareholder value. Mr. Amr Aly Moauly resigned as Chief Finance Officer and a member of the Board of Directors with effect from 1 December 2022. He was replaced by Mr. Willcort Dzuda.

Mr. Shepherd Shonhiwa resigned as an Independent Non-Executive Director and member of the Nomination and Remuneration Committee as well as the Safety Health & Environmental and Corporate Social Responsibility Committee with effect from 31 December 2022. Mr. John William Stull resigned as a Non-Executive Director effective 1 December 2022. Mrs. Gloria Eva Zvaravanhu resigned as an Independent Non-Executive Director, Chairperson of the Audit and Risk Management Committee and member of the Safety Health & Environmental and Corporate Social Responsibility Committee with effect from 19 December 2022. I would like to thank Mr. Moauly, Mr. Ndugwa, Mr. Shonhiwa, Mr. Stull and Mrs. Zvaravanhu, for their dedicated service to the Company during their respective tenures.

### Dividend

Due to the prevailing uncertainties in the economic environment, the loss recorded for the period and the desire to ensure that adequate working capital is maintained in the business, the Directors have not declared a dividend.

### Appreciation

I would like to extend a very special word of gratitude to our customers, suppliers and various stakeholders who have contributed to the success of the business, to all the employees for trusting and co-operating with the leadership direction to manage the various headwinds encountered during the year under review.

### Outlook

We welcome and support efforts by Government and regulatory agencies to stabilise the macro-economic environment and maintain the viability of the cement industry. The need to regulate cement imports, bring inflation under control, address the shortages of electricity supply and an improvement in the state of the global economy are likely to be dominant factors in the Company's performance for the year 2023. The Company will also continue to adapt its business strategy so as to thrive in the ever-changing environment.

Encouraging signs are being observed in the individual household sector and Government-funded infrastructure projects. There is also higher economic activity in the agricultural sector which is being spurred by Government-driven initiatives. The Company is uniquely positioned to support the agricultural sector through its Dry Mortar Products which include agricultural lime. Consequently, the Directors are satisfied with the positive trend in production, sales and profitability recovery despite power outages, and that overall performance will continue improving going forward.

The change of the Company's name from Lafarge Cement Zimbabwe Limited to Khayah Cement Limited was approved by the Board at the EGM held on 7 July, 2023. This paved way for resumption of trading of the Company's shares on the Zimbabwe Stock Exchange amongst other conditions precedent.

### By Order of the Board

**K. C. Katsande**  
Chairman of the Board of Directors  
24 July 2024

## DIRECTORS' RESPONSIBILITY FOR FINANCIAL REPORTING

The Directors of the Company are responsible for the maintenance of adequate accounting records and the preparation of the financial statements and related information. The financial statements are prepared with the intention to comply with International Financial Reporting Standards ("IFRSs"), and the requirements of the Companies and Other Business Entities Act (Chapter 24:31) and Securities and Exchange (Zimbabwe Stock Exchange Listing Requirements) Rules 2019 ("the Zimbabwe Stock Exchange Listings Requirements").

The Directors are also responsible for the systems of internal control. These are designed to provide reasonable, but not absolute, assurance as to the reliability of the financial statements and to safeguard, verify and maintain accountability of assets and to prevent and detect material misstatements and losses. The systems are implemented and monitored by suitably trained personnel with an appropriate segregation of authority and duties. Nothing has come to the attention of the Directors to indicate that any material breakdown in the functioning of these controls, procedures and systems has occurred during the year under review.

The financial statements have been prepared on the going concern basis. The Directors have reviewed the Company's current operational performance, the forecasts for the three-year period from 1 January 2023, the projected cashflows for the forecast period, the recent commissioning of the Vertical Cement Mill (VCM) and the coming on board of a new shareholder. On the basis of this review and assessment of the current financial position, the Directors believe that the Company will remain a going concern for the foreseeable future. However, the Directors believe that under the current economic environment, a continuous assessment of the ability of the Company to continue to operate as a going concern will need to be performed to determine the continued appropriateness of the going concern assumption that has been applied in the preparation of these financial statements (Note 6).

### Compliance with IFRSs

The financial statements are prepared with the aim of complying fully with IFRSs. IFRSs comprise standards issued by the International Accounting Standards Board ("IASB") and interpretations developed and issued by the International Financial Reporting Interpretations Committee ("IFRS IC") or by the former Standing Interpretations Committee ("SIC"). Complying with IFRSs is intended to achieve consistency with the financial reporting framework adopted by the ultimate parent Company, Montanavalley (Private) Limited which is incorporated in Zimbabwe

The financial statements for the year ended 31 December 2022 were approved by the Board of Directors on 16 July 2024 and signed on its behalf by:

**K. C. Katsande**  
Chairman  
24 July 2024

**I. Chikwata**  
Chief Executive Officer  
24 July 2024

### PREPARER OF THE FINANCIAL STATEMENTS

The financial statements have been prepared under the supervision of:

**W. Dzuda CA(Z), Registered Public Accountant**  
Chief Finance Officer  
PAAB No 00207  
24 July 2024

# LAFARGE CEMENT ZIMBABWE LIMITED ABRIDGED AUDITED FINANCIAL RESULTS FOR THE YEAR ENDED 31 DECEMBER 2022

Quality through generations

## NOTES TO THE ABRIDGED FINANCIAL STATEMENTS

### 1. GENERAL INFORMATION

Lafarge Cement Zimbabwe Limited ("the Company") is incorporated in Zimbabwe and is engaged in the manufacture and distribution of cement and allied products. Its ultimate holding Company is Montanavalley (Private) Limited, a Company which is also incorporated in Zimbabwe. The address of its registered office and principal business is Manresa Works, Arcturus Road, Greendale, Harare, Zimbabwe. Montanavalley (Private) Limited acquired a 76.4% shareholding in Lafarge Cement Zimbabwe from Holcim Limited on 1 December 2022.

### 2. FUNCTIONAL AND PRESENTATION CURRENCY

The Company's functional and presentation currency is the Zimbabwe dollars ("ZWL"). Accordingly, the Company's financial statements are presented in Zimbabwe dollars (ZWL) and are rounded off to the nearest thousand dollars (ZWL'000). The Company converted its foreign denominated balances using the Reserve Bank of Zimbabwe exchange rates (mid-rate).

### 3. STATEMENT OF COMPLIANCE

The financial statements of the Company have been prepared using accounting policies that aim to be consistent with International Financial Reporting Standards ("IFRSs"). The financial statements have been prepared in the manner required by the Companies and Other Business Entities Act (Chapter 24:31) and in compliance with the Zimbabwe Stock Exchange Listing Requirements. The financial statements have been presented in Zimbabwe Dollars ("ZWL"). The Company converted its foreign denominated balances using RBZ interbank exchange rate.

### 4. BASIS OF PREPARATION

The financial statements have been prepared from the statutory records that are maintained under the historical cost basis except for certain property, plant and equipment items that are measured at fair value, and certain financial instruments measured at amortised cost, in line with the Company's accounting policies. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services on transaction date and initial recognition.

The financial statements have been prepared on the going concern basis, which the Directors believe to be appropriate.

The Company applied International Accounting Standard ("IAS") 29 Financial Reporting in Hyperinflationary Economies in compliance with the guidance provided by the Public Accountants and Auditors Board ("PAAB") through its pronouncement 01/2019. The current period figures in the financial statements have been restated for the changes in the general purchasing power of the ZWL, with reference with 1 October 2018 as the start date of application of hyperinflation. The corresponding inflation adjusted figures for the prior year utilised a start date of 22 February 2019 for purposes of hyperinflation. Professional judgement was used and appropriate adjustments were made to historical financial statements in preparing financial statements which are IAS 29 compliant for the year ended 31 December 2022.

The effect of inflation on the net monetary position of the Company is included in the statement of profit or loss as a monetary adjustment. The restatement was calculated by means of conversion factors derived from the Zimbabwe Consumer Price Index (CPI) issued by the Zimbabwe Central Statistical Office.

Source of Consumer Price Indices

The consumer price indices ("CPI's") and conversion factors used to restate the accompanying financial statements at 31 December 2022 are as follows:

Dates	Consumer Price Indices	Conversion Factors
CPI as at 31 December 2022	13 672.91	1.0000
CPI as at 31 December 2021	3 977.50	3.4376
CPI as at 31 December 2020	2 474.51	5,5255

### 5. COMMITMENTS FOR CAPITAL EXPENDITURE

	Inflation Adjusted		Historical Cost	
	2022 ZWL '000'	2021 ZWL '000'	2022 ZWL '000'	2021 ZWL '000'
Commitments for the acquisition of property, plant and equipment	10 427 052	2 420 173	10 427 052	704 030

The commitments relate to proposed capital expenditure approved by the Board of Directors.

### 6. GOING CONCERN

In preparing the financial statements, the Directors and management are required to make an assessment of the Company's ability to continue as a going concern.

The Directors and management are continuously monitoring and evaluating the Company's operating landscape to re-assess and appropriately adapt its strategies around the current economic environment. This is to ensure the continued operation of the Company into the foreseeable future. Such strategies include taking advantage of government policies and initiatives intended to support the continued operation of the Company.

The Directors have concluded that the Company's various responses are adequate, and that there are no uncertainties which can hinder the ability of the Company to continue operating as a going concern.

Quality through  
generations

## NOTES TO THE ABRIDGED FINANCIAL STATEMENTS (continued)

### 7. PRIOR PERIOD ERRORS

The Company recomputed its deferred taxation and corrected its quarry rehabilitation provision which affected its 2021 financial statements.

#### Nature of the errors

The Company has made corrections on the following items:

#### (a) Deferred taxation.

In 2021 the Company made an error in the calculation of deferred tax on the exchange gains and losses thereby resulting in an understatement of profit. The Company also made an error on calculation of deferred tax of revaluation gain by charging 24.72% on land. However, this has been corrected in 2022 resulting in the restatement of 2021 figures.

#### (b) Quarry rehabilitation provision.

In 2021 the Company had understated its quarry rehabilitation provision and this resulted in overstatement of profit. Also, the Company did not show the effects of inflation on the quarry rehabilitation note. This has been corrected in 2022.

#### (c) Cash flow presentation

In the year 2021 the Company included the effects of inflation on cash balances in the effects of inflation on cashflow and also the effects of movements in exchange rates was included in the impact of exchange losses. This has been corrected in the current year and restatements has been done.

### 8. EVENTS AFTER BALANCE SHEET DATE

- The Company appointed Mr Innocent Chikwata as Chief Executive Officer and Mr Willcort Dzuda as Chief Finance Officer with effect from the 1st of April 2023 and they were also appointed to Board of Directors on the same day.
- The Company also appointed Ms Sabinah Chitehwe and Mr Tendai Kapumha to the Board of Directors with effect from the 1st of March 2023.
- After the exit of Associated International Cement Limited in November 2022, the Shareholders approved the change of the Company's name from Lafarge Cement Zimbabwe Limited to Khayah Cement Limited at the Extra Ordinary General Meeting held on 7 July 2023.
- The Company took a strategic decision to mothball its kiln during the last quarter of 2023 due to breakdown challenges and started focusing on a grinding station model whilst the kiln is being repaired.
- The Company changed its functional currency to United States Dollars with effect from the 1st of April 2024.
- Mr Willcort Dzuda's secondment as Khayah Cement Limited Chief Finance Officer expired on 31 March 2024 and Mr Bernard Mudzimuirema was appointed as Chief Finance Officer with effect from the 1st of April 2024.
- On the 5th of April 2024, Statutory Instrument 60 of 2024, Presidential Powers (Temporary Measures) (Zimbabwe Gold Notes and Coins) Regulations, 2024 (The S.I) was gazetted, introducing a new currency known as ZiG (Zimbabwe Gold) which was gold backed and was subsequently assigned the currency code ZWG. As at 31 December 2022, the new currency had not come into effect and therefore did not have an impact on the inflation adjusted financial statements for the year ended 31 December 2022.

### 9. AUDITORS OPINION

The Company's Auditors, Ernst & Young Chartered Accountants (Zimbabwe), have issued a qualified opinion as a result of the following:

- Impact of prior year modification on current period – Non-compliance with IAS 8 Accounting Policies, changes in accounting estimates and Errors.
- Inappropriate valuation of Plant and machinery in terms of IFRS 13 'Fair value measurement' and disclosure misstatements in terms of IAS 16 'Property, plant and Equipment.
- Consequential impact on IAS29 - Financial Reporting in Hyperinflationary Economies.

The abridged financial statements should be read in conjunction with the complete set of financial statements for the year ended 31 December 2022.

The Auditors' report is available for inspection at the Company's registered office. The engagement partner responsible for the audit is Mr. Fungai Kuipa (PAAB Practising Certificate Number 335).

### 10. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the board of directors and authorised for issue on 16 July 2024.

## Independent Auditor's Report

### To the Shareholders of Lafarge Cement Zimbabwe Limited

#### Report on the Audit of the Inflation Adjusted financial statements

We have audited the accompanying inflation adjusted financial statements of Lafarge Cement Zimbabwe Limited, as set out on pages 9 to 53, which comprise the inflation adjusted statement of financial position as at 31 December 2022 and the related inflation adjusted statement of comprehensive income, the inflation adjusted statement of changes in equity and the inflation adjusted statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory notes.

In our opinion, except for the effects of the matters described in the Basis for qualified opinion section, the accompanying financial statements present fairly, in all material respects the financial positions of the Company as at 31 December 2022, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs), and the manner required by the Companies and Business Entities Act (Chapter 24:31).

#### Basis for qualified opinion

##### **Matter 1: Impact of prior year modification on current period – Non-compliance with IAS 8 'Accounting Policies, changes in accounting estimates and Errors'**

The prior year audit opinion was modified due to the following matters:

- Absence of contractual documentation to support the accounting treatment of the cash cover provided under the RBZ Blocked Funds Framework on the 2020 financial statements and
- Non-compliance with the requirements of IAS 29 'Financial Reporting in Hyperinflationary Economies'

Although management corrected the errors prospectively in 2021, a retrospective correction would have been required in terms of IAS 8. Therefore, there is a continuing impact on the comparative working capital movements - increase in statutory receivables on the inflation adjusted statement of cashflows and comparative retained earnings, Property, plant and equipment and revaluation reserve on the inflation adjusted statement of financial position.

Our opinion on the current period's inflation adjusted financial statements is therefore modified because of the possible effects of the above matters on comparability of the current period's figures.

##### **Matter 2: Inappropriate valuation of Plant and machinery in terms of IFRS 13 'Fair value measurement' and disclosure misstatements in terms of IAS 16 'Property, plant and Equipment'.**

As per company policy, the company engaged professional valuers to perform a desktop valuation of plant and machinery as at 31 December 2022. While the inputs used by the valuers were in ZWL, we could not validate them as the plant and machinery is specialized. In addition, there is no comparable plant and machinery locally available in Zimbabwe to determine whether the valuation was reasonable. Furthermore, management could not provide the acquisition dates of the assets in the assets register and the valuation specialist could not accurately obtain market values of the assets without this information.

Consequently, the following elements are impacted:

#### Inflation adjusted Statement of Financial Position

- Plant and machinery stated at ZWL22 580 845 000 (2021: ZWL11 973 649 000) which is included in Property plant and equipment of ZWL 50 269 161 000 (2021: ZWL 22 610 704 000)
- Accumulated Losses 2022: ZWL 15 922 789 000 (Retained earnings 2021: ZWL 3 620 338 000)
- Deferred tax 2022: ZWL 4 217 268 000 (2022: ZWL 1 676 114 000)
- Revaluation reserve 2022: ZWL 29 802 608 000 (2021: ZWL12 004 196 000)

Inflation adjusted Statement of Profit or Loss and other comprehensive income

- Depreciation 2022: ZWL 6 198 458 000 (2021: ZWL 2 277 846 000)
- Other comprehensive income for the year 2022: ZWL 17 798 412 000 (2021: ZWL 4 336 592 000)

The prior year audit report was also modified due to this matter.

Further, because the entity's Property, Plant and equipment (PPE) is carried at fair value per the entity's selected accounting policy, IAS 16.77 requires disclosure of the carrying amount that would have been recognized had the assets been carried under the cost model. This disclosure has not been included on the inflation adjusted financial statements by Management as the acquisition dates and cost value of the assets were not available. Our audit report is therefore also modified because of this matter.

### **Matter 3: Consequential impact on IAS29 - Financial Reporting in Hyperinflationary Economies**

Furthermore, notwithstanding that IAS 29 has been applied correctly, it is noted that its application was based on prior periods' financial information, which was not in compliance with, IFRS 13/ IAS 16 as described above. Had the correct base numbers been used, the inflation adjusted financial statement amounts as stated above would have been materially different. Consequently, the monetary gains or losses of ZWL 10 209 423 000 (2021: ZWL 1 1240 407 000) on the inflation adjusted Statement of profit or loss and other comprehensive income are impacted.

The effects of the above misstatements are material but not pervasive to the inflation adjusted financial statements.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Inflation adjusted financial statements section of our report. We are independent of the Company in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Zimbabwe, and we have fulfilled our ethical responsibilities in accordance with these requirements and IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

### **Other matter**

The prior year inflation adjusted financial statements for the year ended 31 December 2021 were audited by another auditor who issued a disclaimer of opinion on 27 April 2022 due to the following:

1. Non-compliance with IAS 21 The effects of changes in foreign exchange rates
2. Inability to obtain sufficient evidence to conclude on the appropriateness of the Fair valuation of Property plant and Equipment in accordance with IFRS 13 and
3. Impact of prior year disclaimer of opinion on comparative information and resultant carryover effects on the current year financial statements

### **Material Uncertainty Related to Going Concern**

We draw attention to Note 28 in the financial statements which indicates that the Company reported a loss for the year of ZWL 19 543 127 000 (December 2021: ZWL 263 930 000 (Loss)), total comprehensive loss of ZWL 1 744 715 000 (December 2021: ZWL 4 072 662 000 (profit)) and a retained loss of ZWL 15 922 789 000 (December 2021: ZWL 3 620 338 000 (earning)). As at that date, the Company's current liabilities exceeded current assets by ZWL 3 584 106 000 (December 2021: ZWL 1 220 523 000). As stated in Note 28, these conditions, along with other matters as set forth in the note, indicate the existence of a material uncertainty which may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

### **Key Audit Matters**

Except for the matters described in the Basis for Qualified Opinion section, we have determined that there are no other key audit matters to communicate in our report.

## **Other information**

The directors are responsible for the other information. The other information comprises of the Chairman's Statement, Directors' Profiles and the Report of the Directors but does not include the inflation adjusted financial statements and our auditor's report thereon. Our opinion on the inflation adjusted financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the inflation adjusted financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the inflation adjusted financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. As described in the Basis for Qualified Opinion section above, the Company did not comply with the requirements of IAS 8 - Accounting Policies, changes in Accounting estimates and Errors; IFRS 13 - Fair value measurement and, IAS 16 - Property, plant and Equipment. We have concluded that the other information is materially misstated for the same reasons.

## **Responsibilities of the Directors for the Inflation adjusted Financial Statements**

The directors are responsible for the preparation and fair presentation of the inflation adjusted financial statements in accordance with International Financial Reporting Standards and the requirements of the Companies and Other Business Entities Act (Chapter 24:31), and for such internal control as the directors determine is necessary to enable the preparation of inflation adjusted financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the inflation adjusted financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

## **Auditor's Responsibilities for the Audit of the Inflation adjusted Financial Statements**

Our objectives are to obtain reasonable assurance about whether the inflation adjusted financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken based on these inflation adjusted financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the inflation adjusted financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is enough and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- ▶ Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the inflation adjusted financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the inflation adjusted financial statements, including the disclosures, and whether the inflation adjusted financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the inflation adjusted financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Mr Fungai Kuipa (PAAB Practicing Certificate Number 335).
