Livingstone T. Gwata

Chairman 27 September 2024

For The Period Ended 30 June 2024

Livingstone T Gwata Chairman

half year ended

30 June 2024

I present to you the Fidelity Life Assurance of Zimbabwe Limited (the "Group") financial results for the half year January to June 2024.

ECONOMIC OVERVIEW

ECONOMIC OVERVIEW

The first half of the year was a tale of two quarters. The first quarter witnessed massive depreciation of the ZWL which was retired at the beginning of April 2024. It had suffered depreciation of 80% on the official interbank marker resulting in a further increase in the foreign currency proportion of domestic transactions to levels around 85%. The introduction of the gold and foreign currency backed Zimbabwood (ZWC) at the beginning of the second quarter, and supportive measures for the new currency, ushered in a period of relative macroeconomic stability. Whilst the acceptance of the ZWG increased across the economic sectors, the volume of new business written in foreign currency increased from 73% as at 30 June 2023 to 89% in the period ending 30 June 2024.

CHANGE OF FUNCTIONAL CURRENCY
These interim financial results are presented in United States Dollars ("USD"). This follows a decision by the Board of Directors to change the functional and reporting currency. The decision was based on an assessment of the Group's business trends against the requirements of International Accounting Standards ("Ika")? 21. This change in the Group's functional currency was implemented with effect from 1 January 2024. The comparative figures have been translated in accordance with IAS 21, which directs entities operating in hyperinflationary economies to translate their last reported inflation adjusted financial statements using the closing official exchange rate at the reporting date, to derive and present comparative financial statements under a newly assessed functional currency. While the Directors have applied the guidance of IAS 21 to present the comparative financial information it is important to note the inherent judgments involved in the translation of ZWL to USD financial statements given the different functional and presentation currencies. This has resulted in distorted comparative financial statements with pure USD revenue and expense transactions being significantly understated and pure USD non-monetary balances being significantly versetated. Due to these distortions resulting from compliance with IFRS, the Board is of the view that the 2023 comparative information is not representative of the past financial performance of the Group.

CROUP FINANCIAL PERFORMANCE REVIEW
Insurance contract revenue rose 277% to USD8.2 million from USD2.2 million during the six months to 30 June 2024, driven by robust USD business growth. Innovative product sales brought in new business and organic expansion, as customers increasingly embraced the Group's offerings. Vaka Yako's strengthening market position was a notable highlight, underpinning the Group's insurance revenue growth.

The Group's insurance service result improved significantly from negative USD4.4 million to positive USD2.0 million, driven by impressive growth in insurance contract revenue, reduced claims experience and effective expense management, which resulted in lower insurance service expenses a 7% decrease from same period in prior year which enhanced the insurance servicesult position for the period under

The Group achieved a 135% profit increase to USD5.2 million up from USD2.2 million recorded in prior year, driven by a trifecta of growth in insurance contract revenue, low insurance service expenses, and fair value gains from the property portfolio.

135% profit increase to USD5.2 million up from USD2.2 million recorded in prior year, driven by a trifecta of growth in insurance contract revenue'

STRATECY EXECUTION

The business managed to achieve the set targets despite the challenging environment. Strong performance was recorded across all the business units with the Life and Pensions business being the flagship of the Group. The actuarial and microlending units have continued to grow albeit at a slower pace. The Asset Management unit launched the Eagle Real Estate Investment Trust (REIT) which has been well received in a market as a desirable alternative investment instrument. The REIT is expected to be listed in the last quarter subject to regulatory approvals.

CUSTOMER EXCELLENCE
The business continues to focus on its lifetime solutions to policyholders. Investing strongly in digitalisation, the Group seeks to offer its customers real time service and convenience.

INNOVATIVE SOLUTIONS
Fidelity Life prides itself as the go to solutions hub through product offerings which are constantly evolving to meet the emerging needs and gaps within our society. The Vaka Yako product was born out of a deepening social need for home ownership and following the commissioning of some of the stands within this product portfolio, the Group had demonstrated its dependability. More product offerings under the "Yako" brand are in the pipeline to continue to address societies ever changing needs.

GEOGRAPHICAL FOOTPRINT Focus has been on strengthening the existing physical and digital geographical footprint to our existing branches and distribution channels. These have seen significant facelifts to our physical branches and improved user friendliness of our digital platforms. International partnerships have been established and strengthened as we strive to cater for our loved ones in the diaspora.

SUSTAINABILITY
The business subscribes to the Sustainability Development Goals (SDGs) as prescribed by the United Nations. Various business and community initiatives have been implemented during the period under review to cater for communities we operate in through self-help projects, health and wellness initiatives and waste reduction projects among others.

The 2024 positioning focus for the FLA brand remains predominantly anchored on market driven products and solutions. In an evolving marketplace where customer needs are rapidly changing, it is imperative that we reaffirm and strengthen our brand positioning to ensure we continue to provide exceptional value, trust and security to those we serve.

FLA remains steadfast in its quest to provide products that are not only relatable to target markets but aim to preserve both shareholder and policyholder's value. Our policyholders and customers are at the centre of everything we do. As such our primary focus for 2024 is to deepen those relationships by focusing on understanding their individual journeys and providing tailored life assurance solutions that meet their unique needs at every stage of life. We are enhancing our product offerings, simplifying processes and unsetting in digital platforms to offer more accessible and personalised services. Through this customer-first approach, we will build long-term relationships grounded in trust, empathy, and responsiveness.

As a life assurance company, we are uniquely positioned to support our clients' long-term well-being, and we understand that our responsibilities extend beyond financial security, As part of our repositioning, we are reinforcing our commitment to sustainable practices and ethical governance. This includes integrating Environmental, Social and Covernance (ESC) principles into our operations, investment strategies, and product offerings. We will continue to be a responsible steward of our clients' wealth ensuring that we contribute to a healther, more equitable and sustainable future for all.

Fidelity Life Assurance of Zimbabwe is a member of the ZiL Group

UPDATE ON THE RECULATORY ASSET SEPARATION EXERCISE
The Asset Separation exercise is now in its final stage that will see the physical separation of assets and compensation for the same.
Stakeholders will be advised of the process through appropriate announcements.

Zimbabwe's economic growth is projected to slowdown to 2% in 2024, a significant decline from the 5.3% achieved in 2023 and the initial forecast of 5.3%. The slowdown is largely a result of a sharp decline in agricultural output for the 2023/24 season on account of the El Nino weather phenomenon. The Financial and Insurance Services sector is however, projected to register 5.6% growth in the current year. Covernment and monetary authorities are expected to continue with policies and measures aimed at promoting use of the local currency and exchange rate stability.

While the use of the local currency in domestic transactions is expected to grow, we expect the business revenue in the second half to remain predominantly in foreign currency. Despite forecasts of a broader economic slowdown, the Group is confident that it will achieve strong revenue and profitability growth. The key driver of this performance will be the Valka Vaka/Orakha Eyakho housing scheme, which has seen a surge in demand following the successful commissioning of Stoneridge Park residential stands in August 2024.

l wish to thank my fellow Directors, Management and staff of the Group for their committed and responsib Our continued respect and gratitude go to our policyholders and stakeholders for the continued support.

UNAUDITED

The Group's fair values of investment properties are based on property valuations performed by an independent professional property valuer. Gains and losses arising from a change in fair value of investment properties are recognised in the profit or loss statement.

As at 30 June 2024, the fair values of the properties are based on valuations performed by Homelux Real Estate an accredited independent valuer. Homelux Real Estate is a specialist in valuing these types of investment properties and has recent experience in the location and category of the investment properties being valued. Valuation models in accordance with recommendations by the International Valuation Standards Committee have been applied.

There were no transfers between Levels 1 or 2 to Level 3 during the year. The fair value of investment properties is categorised as level 3. Significant judgements and assumptions were applied for the Group's investment property portfolio. Land banks and residential properties were valued in United States dollar using the market comparison method and the income capitalisation method was used to value commercial properties.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 30 JUNE 2024

1. DIRECTOR'S RESPONSIBILITY STATEMENT
The Directors are required by the Companies and Other Business Entities Act (Chapter 24:31) to maintain adequate accounting records and are responsible for the content and integrity of the condensed consolidated financial statements and related financial information included in this report. It is their responsibility to ensure that the condensed consolidated financial statements present fairly the Group's financial position as at the end of the year, and the results of its operations and cash flows for the period then ended, in conformity with International Financial Reporting Standards ("IFRS").

2. INDEPENDENT REVIEWER'S STATEMENT
The interim condensed consolidated financial statements for the half year ending 30 June 2024 have not been reviewed in line with the waiver of section 38 (f) (a) of the Securities and Exchange rules by statutory instrument 134/19 granted by the Zimbabwe Stock Exchange.

3. ACCOUNTING POLICIES

3.1 BASIS OF PREPARATION
These interim condensed consolidated financial statements for the half-year ended 30 June 2024 were prepared in accordance with international Accounting Standard ("IAS") 34, "Interim Financial Reporting."

The interim condensed consolidated financial statements do not include all the notes of the type normally included in an annual financial report. Accordingly, these interim financial statements are to be read in conjunction with the annual report for the year ended 31 December 2023 and any public announcements made by the Company during the interim reporting period, accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

These interim condensed consolidated financial statements for the half year ended 30 June 2024 have been prepared in accordance with International Financial Reporting Standards and in the manner required by the Zimbabwe Companies and Other Business Entities Act (Chapter 24:31).

Timbabwe has since 2009 to date adopted a multi-currency system that includes the USD, the South African Rand other currencies within Zimbabwe. Si 33 of 2019 also added bond notes and coins to the currency basket in 2019.

In March 2020, SI 185 of 2020 "Exchange Control (Exclusive Use of Zimbabwe Dollar for Domestic Transactions) (Amendment) Regulations was pronounced introducing dual pricing and displaying, quotion, and offering of prices for goods and services in both local and foreign currency. In June 2022, SI 118A of 2022 "Presidential Powers (Temporary Measures) (Amendment of Exchange Control Act) Regulations, 2022" was embedded into law allowing the multicurrency regime to continue till December 2025. On 27 October 2023, Statutory Instrument 218 of 2025 (SI 218/23) extended the settlement of transactions in foreign currency until 31 December 2030.

The government interventions above resulted in a rapid market-driven shift towards USD transactions in Zimbabwe, with various industries such as retail, construction, education, and local authorities adopting USD pricing for goods and services instead of the Zimbabwe dollar ("ZMU") now Jimbabwe Gold ("ZMC"), with the Government of Zimbabwe we allowing payment of statutory obligations in foreign currency. This resulted in the Group's percentage of USD transactions increasing significantly compared to the local currency.

In light of these developments, the Directors conducted an assessment as required by International Accounting Standard (IAS) 21, The Effects of Changes in Foreign Exchange Rates to determine whether the use of the Zimbabwe Dollar as the functional currency remained appropriate and this assessment led to the conclusion that a change in functional currency from Zimbabwe Dollar ("ZWL") to United States Dollars ("USD") was necessary effective 1 January 2024.

- The Directors considered the following provisions of IAS 21 when determining the Group's functional currency

 i. The currency that mainly influences sales prices for goods or services

 ii. The currency used by its competitive forces and regulations that mainly determine the sale price of its goods and service

 iii. The currency that mainly influences labour, materials, and other costs of providing goods or services

 iv. The currency in which funds from financing activities, (ie. issuing debt and equity instruments), are generated

 v. The currency in which receipts from operating activities are usually retained

In accordance with International Accounting Standard 29, Financial Reporting in Hyperinflation economies, and International Accounting Standard 29, Financial Reporting in Hyperinflation economies, and International Accounting Standard 29, Effects of Changes in Foreign Exchange Rates, the Group prospectively applied the relevant translation procedures on the adoption of the new functional currency and the 31 December 2023 inflation-adjusted figures were translated to USD using the prevailing official exchange rate, except for investment property and equipment which were based on the USD fair values as at 1 January 2024 determined by an independent valuer as the IAS 21 converted numbers were materially different from the IFRS 13 Fair Value Measurement determined values. The resultant balances were adopted as at the opening USD balances for the current year. The income statement comparative numbers were translated using the June 2023 inflation-adjusted figures translated using the average rate for the period. Share capital, share premium, and treasury shares were maintained at the historical figures adopted on a 1:1 basis during currency changes in 2018.

To present a true and fair financial performance and position of the Group in the current period, the following conversion methods were

- Transactions that were consummated in USD are reported as USD
 Transactions consummated in Zimbabwe Gold (ZWG) were converted to USD based on the spot rate which existed on the date of the transaction
 The exchange gains/losses on ZWG transactions and balance upon established the converted to USD based on the spot rate which existed on the date of the transaction.
- The exchange gains/losses on ZWG transactions and balances were established then recorded in the profit and loss statement. An independent valuer determined the USD investment properties and property, plant and equipment valuations as at 30 June 2024.

ments are presented in USD which is both the functional and presentation currency of the Group.

The accounting policies adopted in these condensed consolidated interim financial statements are consistent with those of the previous financial year and corresponding interim reporting period except for the new standards and interpretations adopted from 1 Janaury 2024.

3.5.1 NEW AND AMENDED STANDARDS AND INTERPRETATIONS

Supplier Finance Arrangements:
Amendments to IAS 7 and IFBS 7
The amendments to IAS 7 and IFBS 7
The amendments clarify the characteristics of supplier finance arrangements. In these arrangements, one or more finance providers pay amounts an entity owes to its suppliers. The entity agrees to settle those amounts with the finance providers according to the terms and conditions of the arrangements, either at the same date or at a later date than that on which the finance providers pay the entity's

suppliers. LEASE LIABILITY IN A SALE AND LEASEBACK: AMENDMENTS TO IFRS 16

The amendment to IFRS 16 Leases specifies the requirements that a seller- lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

AMENDMENTS TO IAS 1 'PRESENTATION OF FINANCIAL STATEMENTS' ON CLASSIFICATION OF LIABILITIES AS CURRENT AND NON

ndment clarifies that liabilities are classified as either current or non current, depending on the rights that exist at the end of the

reporting period.

Classification is unaffected by expectations of the entity or events after the reporting date. The amendment also clarifies what IAS 1 means when it refers to the settlement' of a liability

The amendments had no impact on the Group's interim condensed consolidated financial statements.

Fidelity Life Assurance of Zimbabwe is a member of the ZimL Group

HEADLINE EARNINGS PER SHARE

Headline earnings per share is a disclosure requirement in terms of Statutory Instrument 134 of 2019 of the Zimbabwe Stock Exchange (ZSE) listing requirements for companies listed on the ZSE. Headline earnings per share is calculated by dividing the headline earnings by the weighted average number of shares in issue during the year. Disclosure of headline earnings is not a requirement of International Financial Reporting Standards (IFRS).

12. BORROWINGS

12.1 SHORT-TERM BORROWINGS ZB Bank Limited National Social Security Authority 83 435 752 288

ZB Bank LimitedThe overdraft facility with ZB was obtained as a line of credit for the micro-finance business to increase the unit's lending capacity. The facility is denominated in USD and ZWC. The USD facility accrues interest at 15% per annum on a one year tenure and expiring on 31 July 2024 and the ZWG facility accrues interest at 195% (2023-205%) per annum and expiring on 31 July 2024.

National Social Security Authority
The loan facility with the National Social Security Authority ("NSSA") was obtained as a line of credit to bolster the microlending business until tending capacity. The facility is denominated in USD and accrues interest at 24% per annum on a one year tenure expiring on 31 May 2025 with an option to rollover for a further one year on a mutually agreed basis by both parties. The facility is secured by a mortgage bond supported by Zimre Holdings Limited guarantee.

14. CONTINGENCIES

14.1 CONTINGENT LIABILITY
Fidelity Life Assurance of Zimbabwe Limited agreed to unconditionally guarantee USD606 thousand of the full debt owing to ZB Bank Limited on behalf of Fidelity Life Financial Services (Private) Limited in terms of the overdraft facility that was signed between Fidelity Life Financial Services (Private) Limited and ZB Bank Limited.

The guarantee covers part of the overdraft with the amount borrowed plus interest and any other charges and shall remain in place until the overdraft is fully paid. Fidelity Life Assurance of Zimbabwe as the Guarantor will duly pay to the Lender ZB Bank Limited the debt and liabilities in terms of the ZB Bank Limited overdraft facility agreement in the event of default by Fidelity Life Financial Services (Private) Limited up to the guaranteed amount.

14.2 LITIGATIONS AGAINST THE COMPANY
In 2015, Fidelity Life Assurance of Zimbabwe Limited, ("FLA") entered into a sale of shares agreement with CFI Holdings Limited ("CFI") acquiring 80.77% shares in Langford Estates 1962 (Private) Limited, a company whose sole asset is land measuring 834 hectares. The purchase entailed the assumption of CFI Holdings' Limited USDI6million debt owed to a consortium of banks by the Company. Subsequently a Debt Assumption and Compromise Agreement was signed between the Company, Langford Estates 1962 (Private) Limited, CFI Holdings, Crest Poultry (Private) Limited 4x Agrifoods, and FBC Bank Limited, Agricultural Bank of Zimbabwe Limited, Infrastructure Development Bank of Zimbabwe Limited, Standard Chartered Bank Zimbabwe Limited and CBZ Bank Limited. The Company assumed the CFI debt and ownership of 80.77% of Langford Estates and duly paid off the debt.

In March 2018, the Company received a letter from CFI contesting the Sale of Shares Agreement and Debt Assumption and Compromise Agreement. The parties failed to reach an amicable resolution and CFI instituted legal proceedings against the Company in the High Court and Arbitration for cancellation of the debt assumption agreement and setting aside of the agreement of sale of shares respectively. Both matters are pending resolution before the two forums. The directors have engaged external legal counsel to defend the interests of Fidelity Life.

Fidelity Life Assurance of Zimbabwe is a member of the ZimL Group
